Classical Numismatic Group XXIII , **Coins and Christianity** Kenneth A. Jacob, 1985 Throughout history coins have been used for celebration proclamation and propaganda It is hardly surprising that such a potent force as Christianity has featured prominently on coinage the world over indeed coins have always played a significant role in all aspects of the Christian faith Kenneth Jacob traces the connection between coins and Christianity back to pre Christian Greek and Roman issues depicting deities The wealth of allusions to coins in the Bible particularly in the New Testament is examined for evidence of specific issues and denominations can we identify which coins were the Tribute Penny or Judas Iscariot's thirty pieces of silver Back cover **Minerva** , 1997 **Governmental Intervention in Foreign Trade in Archaic and Classical Greece** Errietta M. A. Bissa, 2009 Trade was a necessity in the ancient Greek world yet the prevalent scholarly view is that Greek states intervened in foreign trade only rarely and sporadically This book studies four necessary commodities gold silver ship building timber and grain from production through export to import Through the re evaluation

of known evidence and the presentation of new avenues of research the book shows that Greek and non Greek governments in the archaic and classical periods intervened and involved themselves greatly in foreign trade The book offers the student of the Greek economy a fresh perspective on state intervention in trade and the ways in which intervention worked in the Greek world
