Grinling Gibbons And The Art Of Carving:

Grinling Gibbons and the Art of Carving David Esterly, 1998 Published to coincide with the first ever exhibition of the work of Grinling Gibbons this study looks at Gibbons work from the perspective of a fellow wood carver *The Lost Carving* David Esterly, 2012-12-27 A beautiful intricate meditation on creativity and discovery on fire and rebirth Elizabeth Gilbert Awestruck at the sight of a Grinling Gibbons carving in a London church David Esterly chose to dedicate his life to woodcarving its physical rhythms intricate beauty and intellectual demands Forty years later he is the foremost practitioner of Gibbons s forgotten technique which revolutionized ornamental sculpture in the late 1600s with its spectacular cascades of flowers fruits and foliage After a disastrous fire at Henry VIII s Hampton Court Palace Esterly was asked to replace the Gibbons masterpiece destroyed by the flames It turned out to be the most challenging year in Esterly s life forcing him to question his abilities and delve deeply into what it means to make a thing well Written with a philosopher s intellect and a poet s grace *The Lost Carving* explores the connection between creativity and physical work and illuminates the passionate pursuit of a vocation that unites head and hand and heart *Grinling Gibbons and the Art of Carving* , 1998

Enriching Architecture Christine Casey, Melanie Hayes, 2023-01-26 Refinement and enrichment of surfaces in stone wood and plaster is a fundamental aspect of early modern architecture which has been marginalised by architectural history Enriching Architecture aims to retrieve and rehabilitate

surface achievement as a vital element of early modern buildings in Britain and Ireland Rejected by modernism demeaned by the conceptual turn and too often reduced to its representative or social functions we argue for the historical legitimacy of creative craft skill as a primary agent in architectural production However in contrast to the connoisseurial and developmental perspectives of the past this book is concerned with how surfaces were designed achieved and experienced The contributors draw upon the major rethinking of craft and materials within the wider cultural sphere in recent years to deconstruct traditional oppositional ways of thinking about architectural production This is not a craft for craft s sake argument but an effort to embed the tangible findings of conservation and curatorial research within an evidence led architectural history that illuminates the processes of early modern craftsmanship The book explores broad themes of surface treatment such as wainscot rustication plasterwork and staircase embellishment together with chapters focused on virtuoso buildings and set pieces which illuminate these themes *English Mechanic and Mirror of Science and Art* ,1868
