control of accumulation which reveals important overlooked roles for Irving Fisher's accounting theory. This theory by allowing discretion in accounts in the context of falling rates of profit encouraged swindling, overstating reported profits and understating their risk which facilitated and aggravated both crises. Framed by Fisher's theory during the 1920s, American accounting theorists justified discretion which created the Big Mess; the companion volume concluded it management used to conservatively smooth earnings. Accounting for Crises shows that Fisher's theory also underlays the popular new theory of investment that justified valuing shares using reported earnings which encouraged their manipulation and legitimized speculation. This it argues underlays America's exceptional late 1920s stock market boom, the 1929 Great Crash and the depth and length of its Great Depression. Prominently associated with the boom, Fisher became unpopular after the crash, his name disappearing from public debate. Nevertheless, the book concludes his theory hindered economic recovery, weakened 1930s reforms, undermined accounting regulation from the late 1930s and following his rehabilitation from the late 1950s underlies the Financial Accounting Standards Board's conceptual framework which by allowing off balance sheet accounting for securitization SPEs fostered the 2007 credit crunch that triggered the 2008-2009 Global Financial Crisis (GFC). Energy Abstracts for Policy Analysis, 1988 **Upper Deschutes Resource Management Plan**, 2005 **Cursed** Joanna Tokarska-Bakir, 2023-11-15. In *Cursed*, Joanna Tokarska-Bakir investigates the July 4, 1946 Kielce pogrom, a milestone in the periodization of the Jewish diaspora. This massacre compelled thousands of Polish Jews who survived the Holocaust to flee postwar Poland. It remains a negative reference point in the Polish historical narrative and represents a lack of reckoning with the role of antisemitism in postwar Polish society and identity politics. Tokarska-Bakir weaves together the voices of the Kielce pogrom survivors, witnesses and perpetrators with a myriad of other archival sources. Her meticulous research exposes wartime and postwar biographies of local factory workers, city and church officials, local police officers and members of the security service, some of whom participated in the Holocaust and then directly or indirectly participated in the Kielce pogrom. Tokarska-Bakir paints a social portrait that explores people's behavior in light of forces and emotions greater than themselves. She reconstructs a postwar communist system that despite promises to combat deeply rooted antisemitism not only failed to prevent its spread but turned a blind eye to it and eventually used it to legitimize itself. *Cursed* is a microhistory that recreates the events of the Kielce pogrom step by step and examines the dominant hypotheses about the pogrom through the prism of previously classified archival evidence. It offers readers a nuanced analysis that cuts across social and ideological divisions. The resulting narrative is filled with new discoveries not only about the Kielce pogrom but about the nature of antisemitism, hostility toward minorities and collective violence. Published in Association with the United States Holocaust Memorial Museum *Colstrip Project, Right-of-way, Transmission*, 1979
