Zombie Theory Sarah Juliet Lauro, 2017-10-15 Zombies first shuffled across movie screens in 1932 in the low budget Hollywood film White Zombie and were reimagined as undead flesh eaters in George A Romero s The Night of the Living Dead almost four decades later Today zombies are omnipresent in global popular culture from video games and top rated cable shows in the United States to comic books and other visual art forms to low budget films from Cuba and the Philippines The zombie s ability to embody a variety of cultural anxieties ecological disaster social and economic collapse political extremism has ensured its continued relevance and legibility and has precipitated an unprecedented deluge of international scholarship Zombie studies manifested across academic disciplines in the humanities but also beyond spreading into sociology economics computer science mathematics and even epidemiology Zombie Theory collects the best interdisciplinary zombie scholarship from around the world Essays portray the zombie not as a singular cultural figure or myth but show how the undead represent larger issues the belief in an afterlife fears of contagion and technology the effect of capitalism and commodification racial exclusion and oppression

Navigating Hope Francis B. Nyamnjoh,2025-09-23 In a world grappling with despair and aspiration

Navigating Hope Cultivating Inclusive Optimism in a Complex World challenges simplistic views of optimism This groundbreaking book argues for an inclusive optimism a dynamic negotiated hope acknowledging human incompleteness and fostering relationality to mitigate the negative consequences of unequal encounters Drawing on diverse voices and lived experiences from Africa and beyond the authors explore how optimism is deeply interwoven with social realities from everyday resilience to profound theoretical underpinnings The book confronts the coloniality of optimism revealing how historical power imbalances have weaponised hope leading to Afropessimism for some and cruel optimism for others Through compelling narratives of migrant struggles traditional practices and community resilience Navigating Hope invites readers to see optimism not as delusion but as a vital force for social change It calls for genuine collective hope where no one s flourishing comes at another s expense This groundbreaking and intellectually stimulating book offers inclusive optimism as a framework for understanding the nuances complexities and dilemmas related to the lived experiences and structural conditions of realising hopes and aspirations This entails epistemological inclusivity and relationality and human incompleteness as concepts to move beyond simplistic and cruel forms of optimism Karen Lauterbach Associate Professor and Director of the Centre of African Studies University of Copenhagen Denmark *Visual Storytelling in the 21st Century* David Callahan, 2024-10-14 This volume will explore varying contemporary strategies and examples of visual storytelling across several contemporary spheres from street art to video games from media for children to media for adults from images in movement to static images It reads these storytelling venues in terms of the ethical itineraries that we live by or would like to live by or wish the world lived by In this sense it relates to the fact that the term narrative has become a ubiquitous shorthand for discursive dominance Observers of widely varying aspects of social life talk for example of changing the narrative claiming the narrative overhauling the narrative or owning the narrative While these general contexts are well known there remains a need to continually interrogate new examples of storytelling forms new cases of the uses of stories in differing formats and new stories in general This perpetual need is what this volume aims to respond to by way of its mixture of contemporary storytelling locations and exemplars **Ways of Being Free** Adnan Mahmutović, 2012-01-01 Iconic migrant writers such as Michael Ondaatje Salman Rushdie and Ben Okri use their fictional worlds to articulate the ways in which existential nervous conditions caused by violent postcolonial history drive individuals to rework the critical notions of freedom authenticity and community This existential thread in their works has been largely ignored or left undeveloped in criticism Although Rushdie has argued that they primarily write back to the imperial centre s in their signature novels *The English Patient* *Midnight s Children* and *The Famished Road* they respond to their conflicting cultural and ethnic heritages by dramatizing characters in traumatic struggles with belonging and affiliation As a way of coping with their identity crises most characters succumb to the political rhetoric of communalism The central characters however are driven by a powerful desire for self sufficiency Yet since this individualism clashes with their need for communal sharing they enact a form of creative

destruction of their singular selfhood and communal identity They experience a certain plurality of singular selfhood and participate in forms of inoperative communities which elicit bonds without ties and coexistence without the necessity of a common work and essence Food and Foodways in African Narratives Jonathan Highfield,2017-04-07 Food is a defining feature in every culture Despite its very basic purpose of sustaining life it directly impacts the community culture and heritage in every region around the globe in countless seen and unseen ways including the literature and narratives of each region Across the African continent food and foodways which refer to the ways that humans consume produce and experience food were influenced by slavery and forced labor colonization foreign aid and the anxieties prompted by these encounters all of which can be traced through the ways food is seen in narratives by African and colonial storytellers The African continent is home to thousands of cultures but nearly every one has experienced alteration of its foodways because of slavery transcontinental trade and colonization Food and Foodways in African Narratives Community Culture and Heritage takes a careful look at these alterations as seen through African narratives throughout various cultures and spanning centuries Africans and Globalization Oyinlola Longe,Akinloyè Òjó,Karim Traore,2017-11-22 Africans and Globalization Linguistic Literary and Technological Contents and Discontents considers the substance and dissatisfactions of globalization on Africa and its Diaspora Although variously framed across disciplines globalization has generally entailed non milieu bound interactions which alters the existence of its participants The concerns about the impact of globalization have been raised in relation to Africa and have related to the helpful and deleterious effects Increasingly industrialization without consideration of environmental impacts and westernization including erosion of indigenous values are perceived as synonymous with globalization This multidisciplinary collection contends that in theory globalization linked Africa with the world through trade and information sharing thereby increasing development This collection provides reflections based on contemporary research within the linguistic literary and technological areas of study It illustrates that globalization is not a single process but rather a complex set of processes that seemingly operate in an oppositional manner The collected works make for exciting appraisal as they highlight some of the contents and discontents of globalization across multiple areas of human endeavor in Africa and its diaspora
