

Psychotherapy Progress Note

Use this note to document individual, family or couples psychotherapy sessions and person's response to the intervention during a specific contact.

Data Field	
Person's Name	Record the first name, last name, and middle initial of the person. Order of name is at agency discretion.
Record Number	Record your agency's established identification number for the person.
Person's DOB	Record the person's date of birth.
Organization Name:	Record the organization for whom you are delivering the service.
Modality	Check appropriate box to indicate the type of session: individual, family or couple.
List Name(s) of Person(s) Present	Check appropriate box to indicate whether the person is Present, is a No Show/Canceled or the Provider Canceled. For cancellations, complete Explanation as needed. Check appropriate box to indicate if others are present, list name(s) and relationship(s) to person.
Person's Report of Progress Towards Goals/Objectives Since Last Session	Document person's self-report of progress towards goals since last session including other sources of information, such as family, case manager, etc.
New Issue(s) Presented Today	<p>There are four options available for staff using this section of the progress note:</p> <ol style="list-style-type: none"> 1. If person does not report/present any new issues, mark "None Reported" and proceed to planned intervention/goals. 2. If person reports a new issue that was resolved during the session, check the "New Issue resolved, no CA Update required" box. Briefly document the new issue, identify the interventions used in the Therapeutic Interventions Section, and indicate the resolution in the Response Section of the progress note. Example: Person described being involved in a minor car accident today. Person was not hurt but expressed concern regarding expense of car repair. Person felt more relieved after identifying ways to cover expense over the next two weeks. 3. If person presents an issue that has been previously assessed and for which Goals/Objectives and services have been ordered, then the information may be briefly documented as an indicator of the progress or lack of progress achieved. 4. If person presents any new issue(s) that represent a therapeutic need that is not already being addressed in the IAP, check box indicating a "CA Update Required" and record notation that new issue has been recorded on a Comprehensive Assessment Update of the same Date and write detailed narrative on the appropriate CA Update as instructed in this manual. Also, the newly assessed therapeutic information may require a new goal, objective, therapeutic intervention or service that will require further use of the IAP Review/Revision form. <p>Example: Person reported for the first time that she was a victim of abuse/neglect at the age of twelve as recorded on the Comprehensive Assessment Update of this date.</p>

Initial Therapy Session Progress Notes

Therapeutic Failures in Psychotherapy Nicola Gazzola, Shigeru Iwakabe, Sarah Knox, 2023-10-17 This book examines therapeutic failures in psychotherapy Despite the consistent positive outcome findings and psychotherapists best intentions in their efforts to help their clients psychotherapy simply does not work in all cases In fact 5 10% of adult clients deteriorate during psychotherapy Although not exclusively due to treatment failures per se almost a fifth of clients terminate their therapy prematurely and findings suggest that that between 20 and 30% of clients do not return after the first session with half terminating after just two sessions Therapeutic failures could include a range of negative therapy outcomes such as harm deterioration client non response premature termination or dropout as well as process factors such as negative therapy experiences impasses or alliance ruptures Investigating therapeutic failures holds the key to improving the effectiveness of psychotherapy as well as understanding some of the fundamental conditions that need to be in place for the change mechanisms of psychotherapy to take effect Although psychotherapy has made many strides over the last few decades to improve research rigour and to promote evidence based practices it is a profession that is still growing By embracing the opportunity to learn from therapeutic failures the profession will continue to refine its practices to better serve clients and to strive toward developing ethical and effective practices Both comprehensive and accessible this book will be of great interest to psychotherapists in practice therapists in training as well as students and professionals in psychology and mental health in general The chapters in this book were originally published in Counselling Psychology Quarterly

The Psychotherapy Documentation Primer Donald E. Wiger, 2020-11-04 Everything you need to know to record client intake treatment and progress incorporating the latest managed care accrediting agency and government regulations Paperwork and record keeping are day to day realities in your mental health practice Records must be kept for managed care reimbursement for accreditation agencies for protection in the event of lawsuits to meet federal HIPAA regulations and to help streamline patient care in larger group practices inpatient facilities and hospitals The standard professionals and students have turned to for quick and easy yet comprehensive guidance to writing a wide range of mental health documents the Fourth Edition of The Psychotherapy Documentation Primer continues to reflect HIPAA and accreditation agency requirements as well as offer an abundance of examples Fully updated to include diagnostic criteria of the DSM 5 The Psychotherapy Documentation Primer 4th Edition is designed to teach documental skills for the course of psychotherapy from the initial interview to the discharge The documentation principles discussed in the text satisfy the often rigid requirements of third party insurance companies regulating agencies mental health licensing boards and federal HIPAA

regulations More importantly it provides students and professionals with the empirical and succinct documentation techniques and skills that will allow them to provide clear evidence of the effects of mental health treatment while also reducing the amount of their time spent on paperwork
