Lemkin On Genocide Lemkin On Genocide:

The Origins of Genocide Dominik J. Schaller, Jürgen Zimmerer, 2013-09-13 This year the United Nations celebrated the Convention on the Prevention and Punishment of the Crime of Genocide adopted in December 1948 It is time to recognize the man behind this landmark in international law At the beginning were a few words New conceptions require new terms By genocide we mean the destruction of a nation or of an ethnic group Rarely in history have paradigmatic changes in scholarship been brought about with such few words Putting the quintessential crime of modernity in only one sentence Raphael Lemkin 1900 1959 the Polish Jewish specialist in international law not only summarized the horrors of the National Socialist Crimes which were still underway when he coined the term genocide in 1944 but also influenced international law As the founding figure of the UN Genocide Convention Lemkin is finally getting the respect he deserves Less known is his contribution to historical scholarship on genocide Until his death Lemkin was working on a broad study on genocides in the history of humankind Unfortunately he did not manage to publish it The contributions in this book offer for the first time a critical assessment not only of his influence on international law but also on historical analysis of mass murders showing the close connection between both This book was published as a special issue of the Journal of Genocide Research *Raphael Lemkin and his struggle for the recognition of genocide by international law* Esmir Music, 2017-02-20 Seminar paper from the year 2017 in the subject Politics Topic Public International Law and Human Rights grade 10 zmir University of Economics course Contemporary Debates in Global Politics language English abstract This work provides details about Raphael Lemkin who struggled a lot in order to make a crime against humanity punishable and recognizable under term of genocide Today we frequently hear the word genocide but unfortunately we have no idea about the man who coined the term More precisely the purpose of this piece is to introduce you to the man named Raphael Lemkin and his efforts to contribute to the prevention of the worst crime against humanity The paper provides answers on the questions about Lemkin s motivation and definition of the term genocide Additionally the paper discusses Lemkin s influence on the adoption and the ratification of the Genocide Convention by the United Nations **Totally Unofficial** Facing History and Ourselves, 2007-11 Facing History and Ourselves introduces its first book in the Making History Series Created for classroom use this groundbreaking volume highlights the story of Raphael Lemkin a lawyer of Polish Jewish decent who driven by a sense of moral duty and outraged by injustice helped to facilitate the establishment of the Genocide Convention and set out guidelines for the international prevention and punishment for the crime of genocide After studying the massacres of the Armenians in the Ottoman Empire Lemkin struggled to find a way to use the law to prevent collective violence To support his legal arguments Lemkin coined the word genocide in 1943 How did a new word change the way that people thought about a problem Totally Unofficial explores the spectacular history of one man s work and an international community s need to continue in his footsteps *Lemkin on Genocide* Steven Leonard Jacobs, 2012-07-23 Providing an annotated commentary on two unpublished

manuscripts written by international law and genocide scholar Raphael Lemkin Steven L Jacobs offers a critical introduction to the father of genocide studies Lemkin coined the term genocide and was the motivating force behind the 1948 United Nations Convention on the Punishment and Prevention of the Crime of Genocide The materials collected here give readers further insight into this singularly courageous man and the issue which consumed him in the aftermath of the Second World War It is a welcome addition to the library of genocide and Holocaust Studies scholars and students alike *Raphael Lemkin and the Concept of Genocide* Douglas Irvin-Erickson,2017 Raphael Lemkin was one of the twentieth century s most influential human rights figures coining the word genocide in 1942 and working to embed the idea into international law This book sheds new light on the concept of genocide exploring the connection between Lemkin s philosophical writings juridical works and politics *Raphael Lemkin and the Struggle for the Genocide Convention* J. Cooper,2008-01-17 This book is the first complete biography of Raphael Lemkin the father of the United Nations Genocide Convention based on his papers and shows how his campaign for an international treaty succeeded In addition the book covers Lemkin s inauguration of the historical study of past genocides **Totally Unofficial** Dan Eshet,2007 This case study highlighting the story of Raphael Lemkin challenges everyone to think deeply about what it will take for individuals groups and nations to take up Lemkin s challenge To make this material accessible for classrooms this resource includes several components an introduction by Genocide scholar Omer Bartov a historical case study on Lemkin and his legacy questions for student reflection suggested resources a series of lesson plans using the case study and a selection of primary source documents Born in 1900 Raphael Lemkin devoted most of his life to a single goal making the world understand and recognize a crime so horrific that there was not even a word for it Lemkin took a step toward his goal in 1944 when he coined the word genocide which means the destruction of a nation or an ethnic group He said he had created the word by combining the ancient Greek word *genos* race tribe and the Latin *cide* killing In 1948 three years after the concentration camps of World War ii had been closed forever the newly formed United Nations used this new word in a treaty that was intended to prevent any future genocides Lemkin died a decade later He had lived long enough to see his word widely accepted and also to see the United Nations treaty called the Convention on the Prevention and Punishment of the Crime of Genocide adopted by many nations But sadly recent history reminds everyone that laws and treaties are not enough to prevent genocide Individual sections contain footnotes

What is Genocide? Martin Shaw, 2013-04-26 In this intellectually and politically potent new book Martin Shaw proposes a way through the confusion surrounding the idea of genocide He considers the origins and development of the concept and its relationships to other forms of political violence Offering a radical critique of the existing literature on genocide Shaw argues that what distinguishes genocide from more legitimate warfare is that the enemies targeted are groups and individuals of a civilian character He vividly illustrates his argument from a wide range of historical episodes and shows how the question What is genocide matters politically whenever populations are threatened by violence This compelling book will undoubtedly open up vigorous debate appealing to students and scholars across the social sciences and in law Shaw's arguments will be of lasting importance

The Man who Invented "genocide" James Joseph Martin, 1984 Totally Unofficial Raphael Lemkin, 2013-06-24 Presents the never before published autobiography of Raphael Lemkin who immigrated to the U.S. during World War II and made it his life's work to fight genocide a term he coined with the might of the U.N. Genocide Convention

The Concept of Genocide in International Criminal Law Marco Odello, Piotr Łubiński, 2017 This book presents a review of historical and emerging legal issues that concern the interpretation of the international crime of genocide The Polish legal expert Raphael Lemkin formulated the concept of genocide during the Nazi occupation of Europe which was then incorporated into the 1948 Convention against the Crime of Genocide This volume looks at the issues that are raised both by the existing international law definition of genocide and by the possible developments that continue to emerge under international criminal law The authors consider how the concept of genocide might be used in different contexts and see whether the definition in the 1948

Convention may need some revision also in the light of the original ideas that were expressed by Lemkin The book focuses on specific themes that allow the reader to understand some of the problems related to the legal definition of genocide in the context of historical and recent developments As a valuable contribution to the debate on the significance meaning and application of the crime of genocide the book will be essential reading for students and academics working in the areas of Legal History International Criminal Law Human Rights and Genocide Studies

Genocide Berel Lang, 2016-08-24 The term genocide group killing which first appeared in Raphael Lemkin's 1944 book *Axis Rule in Occupied Europe* had by 1948 established itself in international law through the United Nations Convention on the Prevention and Punishment of the Crime of Genocide Since then the charge of genocide has been both widely applied but also contested In *Genocide The Act as Idea* Berel Lang examines and illuminates the concept of genocide at once articulating difficulties in its definition and proposing solutions to them In his analysis Lang explores the relation of genocide to group identity individual and corporate moral responsibility the concept of individual and group intentions and the concept of evil more generally The idea of genocide Lang argues represents a notable advance in the history of political and ethical thought which proposed alternatives to it like crimes against humanity fail to take into account

Genocide Since 1945 Philip Spencer, 2012 In 1948 the United Nations passed the Genocide Convention The international community was now obligated to prevent or halt what had hitherto in Winston Churchill's words been a crime without a name and to punish the perpetrators Since then however genocide has recurred repeatedly Millions of people have been murdered by sovereign nation states confident in their ability to act with impunity within their own borders Tracing the history of genocide since 1945 and looking at a number of cases across continents and decades this book discusses a range of critical and inter connected issues such as why this crime is different why exactly it is said to be the crime of crimes how each genocide involves a deadly triangle of perpetrators with their collaborators victims and bystanders as well as rescuers the different stages that genocides go through from conception to denial the different explanations that have been put forward for why genocide takes place and the question of humanitarian intervention *Genocide since 1945* aims to help the reader understand how when where and why this crime has been committed since 1945 why it has proven so difficult to halt or prevent its recurrence and what now might be done about it It is essential reading for all those interested in the contemporary world

The Assyrian Genocide Hannibal Travis, 2017-07-20 For a brief period the attention of the international community has focused once again on the plight of religious minorities in Iraq Syria and Turkey In particular the abductions and massacres of Yazidis and Assyrians in the Sinjar Mosul Nineveh Plains Baghdad and Hasakah regions in 2007 2015 raised questions about the prevention of genocide This book while principally analyzing the Assyrian genocide of 1914 1925 and its implications for the

culture and politics of the region also raises broader questions concerning the future of religious diversity in the Middle East. It gathers and analyzes the findings of a broad spectrum of historical and scholarly works on Christian identities in the Middle East, genocide studies, international law, and the politics of the late Ottoman Empire as well as the politics of the Ottomans, British, and Russian rivals for power in western Asia and the eastern Mediterranean basin. A key question the book raises is whether the fate of the Assyrians maps onto any of the concepts used within international law and diplomatic history to study genocide and group violence. In this light, the Assyrian genocide stands out as being several times larger in both absolute terms and relative to the size of the affected group than the Srebrenica genocide, which is recognized by Turkey as well as by international tribunals and organizations. Including its Armenian and Greek victims, the Ottoman Christian Genocide rivals the Rwandan, Bengali, and Biafran genocides. The book also aims to explore the impact of the genocide period of 1914-1925 on the development or partial unraveling of Assyrian group cohesion, including aspirations to autonomy in the Assyrian areas of northern Iraq, northwestern Iran, and southeastern Turkey. Scholars from around the world have collaborated to approach these research questions by reference to diplomatic and political archives, international legal materials, memoirs, and literary works.

A Cultural Interpretation of the Genocide Convention Kurt Mundorff, 2020-08-25

This book critiques the dominant physical and biological interpretation of the Genocide Convention and argues that the idea of culture is central to properly understanding the crime of genocide. Using Raphael Lemkin's personal papers, archival materials from the State Department and the UN, as well as the mid-century secondary literature, it situates the convention in the longstanding debate between Enlightenment notions of universality and individualism and Romantic notions of particularism and holism. The author conducts a thorough review of the treaty and its preparatory work to show that the drafters brought strong culturalist ideas to the debate and that Lemkin's ideas were held widely in the immediate postwar period. Reconstructing the mid-century conversation on genocide and situating it in the much broader mid-century discourse on justice and society, he demonstrates that culture is not a distraction to be read out of the Genocide Convention; it is the very reason it exists. This volume poses a forceful challenge to the materialist interpretation and calls into question decades of international case law. It will be of interest to scholars of genocide, human rights, international law, the history of international law, and human rights and treaty interpretation.
