The Second World Wars Victor Davis Hanson, 2017-10-17 A breathtakingly magisterial account of World War II by America's preeminent military historian Wall Street Journal World War II was the most lethal conflict in human history Never before had a war been fought on so many diverse landscapes and in so many different ways from rocket attacks in London to jungle fighting in Burma to armor strikes in Libya *The Second World Wars* examines how combat unfolded in the air at sea and on land to show how distinct conflicts among disparate combatants coalesced into one interconnected global war Drawing on 3 000 years of military history bestselling author Victor Davis Hanson argues that despite its novel industrial barbarity neither the war's origins nor its geography were unusual Nor was its ultimate outcome surprising The Axis powers were well prepared to win limited border conflicts but once they blundered into global war they had no hope of victory An authoritative new history of astonishing breadth *The Second World Wars* offers a stunning reinterpretation of history's deadliest conflict

Americans Experience Russia Choi Chatterjee, Beth Holmgren, 2013-05-02 *Americans Experience Russia* analyzes how American scholars journalists and artists envisioned experienced and interpreted Russia the Soviet Union over the last century While many histories of diplomatic economic and intellectual connections between the United States and the Soviet Union can be found none has yet examined how Americans encounters with Russian Soviet society shaped their representations of a Russian Soviet other and its relationship with an American west The essays in this volume critically engage with postcolonial theories which posit that a self valorizing unmediated west dictated the colonial encounter repressing native voices that must be recovered Unlike western imperialists and their colonial subjects Americans and Russians long co existed in a tense parity regarding each other as other than European equals sometime cultural role models temporary allies and political antagonists In examining the fiction film journalism treatises and histories Americans produced out of their Russian experience the contributors to this volume closely analyze these texts locate them in their sociopolitical context and gauge how their producers profession politics gender class and interaction with native Russian interpreters conditioned their authored responses to Russian Soviet reality The volume also explores the blurred boundaries between national identities and representations of self other after the Soviet Union's fall

Between Giants Prit Buttar, 2013-05-20 During World War II Latvia Lithuania and Estonia found themselves trapped between the giants of the Soviet Union and Nazi Germany Over the course of the war these states were repeatedly occupied by different forces and local government organizations and individuals were forced to choose between supporting the occupying forces or forming partisan units to resist their occupation Devastated during the German invasion these states then became the site of some of the most vicious fighting during the Soviet counter attack and push towards Berlin Many would be caught up in the bitter fighting in the region and in particular in the huge battles for the Courland Bridgehead during Operation Bagration when hundreds of thousands of soldiers would fight and die in the last year of the war By the end of the war death and deportation had cost the Baltic States over 20 per cent of their total population and Soviet occupation was to see the iron curtain descend on the region for four decades Using numerous first hand accounts and detailed archival research Prit Buttar weaves a magisterial account of the bitter fighting on the Eastern Front and the three small states whose fates were determined by the fortunes and misfortunes of war

The New Tsar Steven Lee Myers, 2015 The epic tale of the rise to power of Russia's current president of his emergence from shrouded obscurity and deprivation to become one of the most consequential and complicated leaders in modern history

A History of the Laws of War: Volume 2 Alexander Gillespie, 2011-10-07 This unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and ascribing rules to them protecting civilians who are either inadvertently or intentionally caught up between them and controlling the use of particular classes of weapons that may be used in times of conflict Thus it is that this work is divided into three substantial parts Volume 1 on the laws affecting combatants and captives Volume 2 on civilians and Volume 3 on the law of arms control This second book on civilians examines four different topics The first topic deals with the targetting of civilians in times of war This discussion is one which has been largely governed by the developments of technologies which have allowed projectiles to be discharged over ever greater areas and attempts to prevent their indiscriminate utilisation have struggled to keep pace The second topic concerns the destruction of the natural environment with particular regard to the utilisation of starvation as a method of warfare and unlike the first topic this one

has rarely changed over thousands of years although contemporary practices are beginning to represent a clear break from tradition The third topic is concerned with the long standing problems of civilians under the occupation of opposing military forces where the practices of genocide collective punishments and or reprisals and rape have occurred The final topic in this volume is about the theft or destruction of the property of the enemy in terms of either pillage or the intentional devastation of the cultural property of the opposition As a work of reference this set of three books is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself **The Besieged** Caroline

Walton,2011-09-01 The Besieged is a beautifully observed account of one of the defining moments of twentieth century history the Siege of Leningrad The Siege began in September 1941 when German forces severed the last connection to the city and was to last for 872 days during which the dying population suffered horrors almost beyond the powers of description

Atrocities, Massacres, and War Crimes Alexander Mikaberidze,2013-06-25 Both concise and wide ranging this encyclopedia covers massacres atrocities war crimes and genocides including acts of inhumanity on all continents and serves as a reminder that lest we forget history will repeat itself The 400 plus entries in Atrocities Massacres and War Crimes An Encyclopedia provide accessible and concise information on the difficult subject of abject human violence committed on all continents The entries in this two volume work describe atrocities massacres and war crimes committed in the 20th century thereby documenting how human beings have repeatedly proven their capability to commit horrific acts of inhumanity even in relatively recent times and within the modern era The encyclopedia covers countries treaties and terms profiles individuals who had been formally indicted for war crimes as well as those who have committed mass atrocities and gone unpunished and addresses human rights violations crimes against humanity and crimes against peace Gulag Boss Fyodor Vasilevich

Mochulsky,2010-11-04 The searing accounts of Aleksandr Solzhenitsyn Evgeniia Ginsberg and Varlam Shalamov opened the world s eyes to the terrors of the Soviet Gulag But not until now has there been a memoir of life inside the camps written from the perspective of an actual employee of the Secret police In this riveting memoir superbly translated by Deborah Kaple Fyodor Mochulsky describes being sent to work as a boss at the forced labor camp of Pechorlag in the frozen tundra north of the Arctic Circle Only twenty two years old he had but a vague idea of the true nature of the Gulag What he discovered was a world of unimaginable suffering and death a world where men were starved beaten worked to death or simply executed Mochulsky details the horrific conditions in the camps and the challenges facing all those involved from prisoners to guards He depicts the power struggles within the camps between the secret police and the communist party between the political prisoners most of whom had been arrested for the generic crime of counter revolutionary activities and the criminal convicts And because Mochulsky writes of what he witnessed with the detachment of the engineer that he was readers can easily understand how a system that destroyed millions of lives could be run by ordinary Soviet citizens who believed they were

advancing the cause of socialism Mochulsky remained a communist party member his entire life he would later become a diplomat but was deeply troubled by the gap between socialist theory and the Soviet reality of slave labor and mass murder This unprecedented memoir takes readers into that reality and sheds new light on one of the most harrowing tragedies of the 20th century
