This robust software stack and storage array simplifies your desktop solution with less cost and comes with Lenovo-unique tools enhanced by LANDesk®. It delivers true PC and windows fidelity, using off-the-shelf Windows applications, IT applications and PC add-ons to co-exist and integrate directly with existing IT, asset, process management and financial systems. It's also now dramatically easier for employees to set up - desk-side support tickets become a thing of the past. Built-in, IT-oriented business reports are delivered weekly across the company on end-user experience, client, network and printing performance. SMC allows for image management and control, and easy maintenance is offered via the SAN. Above and beyond what SMC does for you, it's risk-free because it operates as a fully functional ThinkCentre client.
