teachers Patrick D Miller Charles T Haley Professor of Old Testament Theology Princeton Theological Seminary This is one of those rare bibliographic guides that every student of religion seminarian and minister will want to have on his or her bookshelf The focus of this guide is on biblical studies It contains entries on 2 200 books written by 1 300 scholars Annotations describe and evaluate books that are highly recommended Virtually every topic in biblical studies is noted commentaries on each book of the Bible biblical histories theologies and ethics books on the canon archaeology early Judaism and interpretive methods and technical books such as grammars concordances Bible dictionaries and atlases The great strength of this guide is not only that it provides the reader with a wealth of information but also that the format it follows is eminently reader friendly The Guide is invaluable for assisting the student seminarian or minister in building a personal library I highly recommend it Jack Dean Kingsbury Professor Emeritus of Biblical Theology Union Theological Seminary in Virginia This book provides pastors and church workers with a map for navigating the maze of biblical studies It offers an extensive list of resources with helpful comments and recommendations that help readers discover which books will be of most interest to them The consistent focus is on volumes that are attentive to faith concerns and thus most promising for use within faith communities A valuable tool for any minister or church worker committed to taking the Bible seriously Mark Allan Powell Professor of New Testament Trinity Lutheran Seminary *Preaching as the Word of God* Sam Chan,2016-07-12 According to the Reformers preaching is the word of God As the word of God preaching is a foundation for the church It is also vital for the personal growth of a Christian But Christians are poorly equipped to understand how preaching is the word of God Some Christians look for preaching that closely reproduces the text in the Bible Other Christians look for preaching that creates maximal emotional and existential impact And there is a lot of name calling with Christians accusing preachers of not preaching the word But what type of preaching is the word of God The purpose of this book is to equip Christians to understand how preaching can be God speaking It accomplishes this with a survey of the problem in the history of the church a detailed overview of key biblical texts and finally the application of the contemporary philosophical tool of speech act theory *Ontologized Ethics* Elvis Imafidon,John Ayotunde Isola Bewaji,2013-11-21 *Ontologized Ethics* New Essays in African Meta Ethics examines an often neglected meta ethical issue in African philosophical discourse the extent to which one s orientation of being or idea of what is as an individual or as a group of persons does or should determine one s concept of the good To what extent is ethics or our idea of what is permissible or impermissible grounded on ideas of what fundamentally exists or what it means to be The aim of this collection of essays with emphasis on an African philosophical context will be to establish more firmly and vigorously whether there is an intrinsic link between ontology and morality that is whether and if so how the proper norms for human actions can be explained and validated once we make lucid ideas about metaphysical topics such as human nature community relationality and spirituality The essays included in this volume focus rigorously on ethical issues such as communalism adultery environmental ethics and

bioethics with the primary aim of showing whether the link between such issues and metaphysical beliefs is trivial or intrinsic
