Letters to a Law Student 3rd edn Nicholas J McBride, 2014-06-30 Letters to a Law Student relays all that a prospective law student needs to know before embarking on their studies It provides a useful guide to those considering a law degree or conversion course and helps students prepare for what can be a daunting first year of study **The Electrical Review**, 1913 *The National Magazine*, 1918 *Resources in Education*, 2001-10 The University of Google Tara Brabazon, 2016-02-17 Looking at schools and universities it is difficult to pinpoint when education teaching and learning started to haemorrhage purpose aspiration and function Libraries and librarians have been starved of funding Teachers cram their curriculum with skill development and generic competencies because knowledge creativity and originality are too expensive to provide to unmotivated students and parents obsessed with league tables not learning Meanwhile the internet offers a glut of information on everything under the sun a mere mouse click away Bored surfers fill their cursors and minds with irrelevancies We lose the capacity to sift discard and judge Information is no longer for social good but for sale Tara Brabazon argues that this information fetish has been profoundly damaging to our learning institutions and to the ambitions of our students and educators In The University of Google she projects a defiant and passionate vision of education as a pathway to renewal where research is based on searching and students are on a journey through knowledge rather than consumers in the shopping centre of cheap ideas Angry humorous and practical in equal measure The University of Google is based on real teaching experience and on years of engaged and sometimes exasperated reflection on it It is far from a luddite critique of the information age Tara Brabazon celebrates the possibilities of digital platforms in education but deplores the consequences of placing funding on technology and not teachers In doing so she opens a new debate on how to make our educational system both productive and provocative in the post information age **Covering Immigration** Leo R. Chavez, 2023-11-15 On October 17 1994 The Nation ran the headline The Immigration Wars on its cover over an illustration showing the western border of the United States with a multitude of people marching toward it In the foreground the Statue of Liberty topped by an upside down American flag is joined by a growling guard dog lunging at a man carrying a pack The magazine's coverage of emerging anti immigrant sentiment shows how highly charged the images and texts on popular

magazine covers can be This provocative book gives a cultural history of the immigration issue in the United States since 1965 using popular magazine covers as a fascinating entry into a discussion of our attitudes toward one of the most volatile debates in the nation Leo Chavez gathers and analyzes over seventy cover images from politically diverse magazines including Time Newsweek U S News and World Report Business Week The New Republic The Nation and American Heritage He traces the connections between the social legal and economic conditions surrounding immigration and the diverse images through which it is portrayed Covering Immigration suggests that media images not only reflect the national mood but also play a powerful role in shaping national discourse Drawing on insights from anthropology sociology and cultural studies this original and perceptive book raises new questions about the media s influence over the public s increasing fear of immigration On October 17 1994 The Nation ran the headline The Immigration Wars on its cover over an illustration showing the western border of the United States with a multitude of people marching toward it In the foreground the Statue of Liberty topped
