Reimagining Society in 18th Century French Literature Jonas Ross Kjærgård,2018-08-06 The French revolutionary shift from monarchical to popular sovereignty came clothed in a new political language a significant part of which was a strange coupling of happiness and rights In Old Regime ideology Frenchmen were considered subjects who had no need of understanding why what was prescribed to them would be in the interest of their happiness The 1789 Declaration of the Rights of Man and of the Citizen equipped the French with a list of inalienable rights and if society would respect those rights the happiness of all would materialize This volume explores the authors of fictional literature who contributed alongside pamphleteers politicians and philosophers to the establishment of this new political arena filled with sometimes vague yet insistent notions of happiness and rights The shift from monarchical to popular sovereignty and the corollary transition from

subjects to citizens culminated in the summer of 1789 but it was preceded by an immense piece of imaginative work A
New History of French Literature Denis Hollier,1998-08-19 This splendid introduction to French literature from 842 A D to
 the present decade is the most imaginative single volume guide to the French literary tradition available in English The
Eighteenth-century French Novel Vivienne Mylne,1970 **Seducing the Eighteenth-Century French Reader** Paul J.
 Young,2016-12-05 As he demonstrates that narratives of seduction function as a master plot for French literature in the
 eighteenth century Paul Young argues that the prevalence of this trope was a reaction to a dominant cultural discourse that
 coded the novel and the new practice of solitary reading as dangerous seductive practices Situating his study in the context
 of paintings educational manuals and criticism that caution against the act of reading Young considers both canonical and
 lesser known works by authors that include Rousseau Sade Bastide Laclos Cr billon fils and the writers of two widely read
 libertine novels How these authors responded to a cultural climate that viewed literature and especially the novel as
 seductive sheds light on the perils and pleasures of authorship the ways in which texts interact with the larger cultural
 discourse and what eighteenth century texts tell us about the dangers of reading or writing Ultimately Young argues the
 seduction not in the text but by the text raises questions about the nature of pleasure in eighteenth century French literature
 and culture **The French Book Trade in Enlightenment Europe I** Mark Curran,2018-08-09 This volume is a ground
 breaking contribution to enlightenment studies and the international and cross cultural history of print The result of a five
 year research project the volume traces the output and dissemination of books and how reading tastes changed in the years
 1769 1794 Mapping the book trade of the Soci t Typographique de Neuch tel STN a Swiss publisher wholesaler which
 operated throughout Europe the authors reconstruct the cosmopolitan elite culture of the later enlightenment incorporating
 many engaging case studies The STN s archives are uniquely rich in both detail and range and while these archives have long
 attracted book historians notably Robert Darnton a leading scholar of the Enlightenment existing work is fragmentary and
 limited in scope By means of comparative study the author considers the entire book market across Europe making local
 regional and chronological nuances based on advanced taxonomies of subject content author information markers of illegality
 and much more This volume is in short the most diverse and detailed study of the late 18th century book trade yet while
 offering fresh insights into the enlightenment **Virtue, Happiness and Duclos' Histoire de Madame de Luz** L.R.
 Free,2013-04-17 Charles Pinot Duclos biography dramatizes the evolution from the rigid separation of the aristocratic and
 plebeian classes in the seventeenth century to the gradual social democratization in the eighteenth This son of a Brittany
 merchant from the little village of Dinan rose to social prominence in the aristocratic salon circles of Paris and to literary pre
 eminence as attest contemporary memoirs the success of his novels histories and moral writings as well as his official
 positions a member of two academies Royal Historiographer Perpetual Secretary of the French Academy a feat nearly
 impossible in the stratified society of seventeenth century France Moreover not only was Duclos the exceptional con

Gender and Voice in the French Novel, 1730-1782 Aurora Wolfgang, 2017-03-02 Analyzing four best selling novels by both women and men written in the feminine voice this book traces how the creation of women centered salons and the emergence of a feminine poetic style engendered a new type of literature in eighteenth century France The author argues that writing in a female voice allowed writers of both sexes to break with classical notions of literature and style so that they could create a modern sensibility that appealed to a larger reading public and gave them scope to innovate with style and form Wolfgang brings to light how the female voice in literature came to embody the language of sociability but also allowed writers to explore the domain of inter subjectivity while creating new bonds between writers and the reading public Through examination of Marivaux s *La Vie de Marianne* Graffigny s *Lettres d'une Pruvienne* Riccoboni s *Lettres de Mistriss Fanni Butlerd* and Laclos s *Les Liaisons dangereuses* she shows that in France this modern feminine sensibility turned the least prestigious of literary genres the novel into the most compelling and innovative literary form of the eighteenth century Emphasizing how the narratives analyzed here refashioned the French literary world through their linguistic innovation and expression of new forms of subjectivity this study claims an important role for feminine voice narratives in shaping the field of eighteenth century literature
