Product Description

A top choice for landscaping and lawn care experts, the Lesco High Wheel Fertilizer Spreader with Manual Deflector Kit (model 101186) has established itself as the industry standard spreader from its ability to adapt to user's needs all year round. Ideally, this Lesco spreader is used during the spring and summer months to spread granular products, such as fertilizers, seed, etc. on lawns and turf in order to promote healthy root growth. But it also finds great use in winter to spread salt and ice melt on sidewalks, driveways, or pathways to prevent slipping incidents from happening. Its extra-large pneumatic tires provide a smooth ride and increased stability over most terrain, while reducing the chances of rutting considerably. An all stainless steel frame, axle, and impeller shaft are just some of the features that ensure this Lesco 101186 can withstand the harshness of outdoor conditions, thus providing you with long lasting service. Please note that this Lesco 101186 Spreader is a replacement for the now discontinued Lesco 091186 model. A rain cover is not included and is sold separately. [Read more](#)
