**CCSS:**

**The Number System CCSS:**

**7.NS.1a:** Describe situations in which opposite quantities combine to make "0".

**7.NS.1b:** Apply and extend previous understandings of operations with fractions.

**7.NS.1d:** Apply properties of operations as strategies to add and subtract rational numbers.

**Mathematical Practice: MP.2-Reasoning** It calls for students to organize and communicate mathematical ideas. Students use a number line to add two rational numbers that have different signs.

*This will be provided after Setptember 4, 2018's PL session)*

**2018-19 Instructional Focus for IS 349:**

*"If all teachers use results from common pre and post unit assessments and collaborate to provide strategic interventions then all students will demonstrate progress towards proficiency." (Note: This will be adjusted after September 4*

**S**

**Aim:** (Takes the form of a "How" or "Why" question that is small enough to tackle in a class period, but this promotes student thinking. The "Aim" should appear visible to students at the front of the room for the entire period. This question is often the "Exit" assessment. It takes the class period to answer and should be displayed in front of the room for the entire period.)

**How can you add rational numbers?**

**Answer:** *If the two numbers have the same sign you can add them together and give the sum the same sign as the two numbers. If the sum of two numbers have different signs, find the difference of their absolute values and use the sign of the number with the greater absolute value.*
