Educating for Citizenship in a Canada-China Sister School Reciprocal Learning Partnership Yishin Khoo, 2022-12-13 This book enriches the discourse around Global Citizenship Education in

teacher education through the example of a teacher's experience in a Canada China Sister School reciprocal learning landscape. Instead of positioning global citizenship teaching and learning as a set of fixed goals to be attained by teachers alone, this book approaches global citizenship teaching and learning as unfinished lifework in progress and as situated curriculum problems to be inquired together by university researchers, school teachers, and students under the spirit of reciprocity and community. This reimagining of narratives theory and action start from collaborative and reciprocal learning partnerships among Chinese and Canadian researchers and teachers in the practicality of re-searching and re-enacting the purpose and meanings of twenty-first century education in a Canada China Sister School setting.

No Fear Coding Heidi Williams, 2021-02-17 This new edition of the popular book *No Fear Coding* offers current research, updated tools, and more cross-curricular connections for K-5 teachers to integrate into their classes. Coding has become an essential skill for finding solutions to everyday problems while computational thinking (CT) teaches reasoning and creativity and offers an innovative approach to demonstrating content knowledge and seeing mathematical processes in action. *No Fear Coding* introduced many K-5 educators to ways to bring coding into their curriculum by embedding computational thinking skills into activities for different content areas. This second edition features updated tools including programmable robots and other physical computing devices as well as new activities aligned to the ISTE Standards for Students and Computational Thinking Competencies. Also new in this edition: New tools for teaching coding including physical computing devices, block-based programming, and AR/VR along with methods for introducing tutorials and lesson plans. Teachable examples and activities that illustrate CT concepts: decomposition, pattern recognition, abstraction, and algorithmic thinking. Resources for deeper understanding and discussion questions for professional development and reflection on the practice of teaching coding and CT. Tips on demystifying basic coding concepts so that teachers are comfortable teaching these concepts to their students. *No Fear Coding Second Edition* will help build students' coding and CT knowledge to prepare them for the middle grades and beyond. Audience: K-5 classroom teachers.

Common Core Standards for Elementary Grades K-2 Math & English Language Arts Amber Evenson, Monette McIver, Susan Ryan, Amitra Schwols, 2013-05-20 Smart implementation of the Common Core State Standards requires both an overall understanding of the standards and a grasp of their implications for planning teaching and learning.
