Lesson Plans For Summer Camp Drama Activities:

Drama and Education Manon van de Water, Mary McAvoy, Kristin Hunt, 2015-02-20 Drama and Education provides a practical comprehensive guide to drama as a tool for teaching and learning. It is among the first practical drama and performance textbooks that address brain based neuroscientific research making the argument that creativity is necessary in our lives that embodied learning is natural and essential and that contextual learning helps us find our place in society in relationship to other peoples and cultures. As well as a historical and theoretical overview of the field it provides rationale and techniques for several specific methodologies: linear drama, process oriented drama, drama for social justice and performance art. Each approach is supplemented with sample lesson plans, activities, ideas for differentiation and extensive bibliographies. The topics are discussed from five key angles: Historical and theoretical foundations, Curricular applications, Practical toolkits for a range of classrooms and learning environments, Different strategies for lesson plans, Extension options for longer workshops. Alongside these core methods the integration of other innovative forms from performance art to Theatre of the Oppressed into drama based learning is explored as well as the pragmatic concerns such as assessment planning and advocacy for arts learning and arts education partnerships. Drama and Education is the comprehensive textbook for teachers and students on Applied Theatre and Theatre and Education courses. The Teacher Monologues Mindy R. Carter, 2014-09-11 This book examines the experiences of four Conservatory style trained actors who go onto complete teacher education programs. In keeping with a r tography this research uses social science methods and creative methods of data collection. Interviews and reflective writing about the participant's educational and experiential backgrounds are complimented by the writing of monologues. Themes from the data collected during interviews, reflective writing and monologues led to the understandings that there is a connection between developing consciousness and having a noetic experience. Actor teachers want to talk about their noetic experiences. residue is an a r tographic rendering used to describe the way that having an illuminating experience in theatre school affected the participants and an immanent curriculum can be understood by theatrical engagement. In addition to exploring the interview data and monologues time is spent understanding the works of Antonin Artaud a prolific theatre artist and a r tography a method of arts based research. This theoretical and a r tographical investigation leads to the creation of Interludes. These Interludes theorized as rhizomatic curricular offshoots allow for multiple entry points into these new understandings and provide an example of how to bring together artful inquiry into an academic arena.
