Let Go Let Miracles Happen The Art Of Spiritual Surrender:

Let Go, Let Miracles Happen Kathy Cordova, 2003-11-01 Author Kathy Cordova was an overworked stressed out sales executive After the birth of her first child a colicky baby who went through a number of nannies Cordova finally figured out the Universe was giving her a message give it up She quit her job to become a full time mom And as she adjusted to her new life Cordova learned the power of miracles through the art of surrender Part I of Let Go Let Miracles Happen shows readers that surrender is much more powerful and effective than constant striving or toughing it out at all costs Based on wisdom drawn from the Bible and contemporary books such as A Course in Miracles Cordova tells how she discovered and came to accept surrendering her own life She guides readers to experience how surrender can actually make them stronger Hard to believe in our go go culture but literally doing nothing and fully and deeply accepting circumstances is often a wiser course of action The power of waiting while accepting and surrendering produces miracles The good news is miracles Cordova writes Instead of working so hard to find or create magic in our lives we can relax go with the flow work together in harmony with a greater power than ourselves and experience more joy and purpose than we ever imagined And the formula is simple love and surrender Part II of Let Go Let Miracles Happen is an inspirational collection of stories from people who have suffered everything from addictions to terminal diseases profound disappointments to perpetual disillusionment and triumphed Cordova shows that what they all have in common is that when they learned to surrender let go accept and wait miracles happened

When You Think About It Cynthia Mitchell, 2015-02-27 At an early age you begin to ask yourself questions Lots of questions Some of these questions you can find answers to but many you tell yourself have no answers so you tuck them away for another day That day came for the author when she lost her only child Breana The pain was immense and the questions unending Where is she Would she see her again Why isn't she here for her son If everything has a purpose what could the purpose of losing her possibly be Is there really a God and what or who is He For Cyndi life had no reason without her daughter in it Is this physical world we live in the only reality If so what is the point She became obsessed with finding her and with answering those long ago questions When faith is not enough where do you turn The things we learn as children become the facts we base our decisions on Are they true or just accepted and passed down through time She began reading intensely There was an interest in anything written by mediums psychics doctors nurses scientists near death experiencers and hospice workers anyone who had something to say on the subject was where she looked She noticed that early physicists were being quoted in some of the books she was reading Why She wanted to learn more What is this quantum world and how do we fit into it She realized that greater minds than hers had written these books and she wasn't sure if she could understand them The concentration she needed was unavailable to her in the beginning Determination drove her forward however and in time the concentration came She was surprised when she began to see the lines cross between God not religion and science God appeared to be the ultimate scientist and not a god at all In fact He is very

different from the human god she had learned of as a child There were many reasons to be afraid of that God She wondered why she had not come across a book that incorporated all of these subjects into one Had no one else seen the correlation Could she write something for her grandson that would help him understand what she now understood so clearly She began taking notes Those notes became When You Think About It **Refiguring Identity in Corporate Times** David
