Lemko Studies Bogdan Horbal, 2010 The Lemko are a small band of East Slavic highlanders who for centuries have inhabited the northern slopes of the Carpathian Mountains Unable to control their political fate these folk have spent their entire history under foreign rule and divided among competing ideologies After World War II the Lemko were forcibly resettled across the Ukraine and western and northern territories of Poland Nevertheless they continue to utilize vernacular speech and practice the rich cultural traditions of their ancestors The story of the Lemkos and their remarkable ethnic survival is relayed in this book the first comprehensive reference on this group and their region Featuring more than 5 000 bibliographic citations the volume describes the geology geography flora fauna and climate of the Lemko region It discusses access to materials and resources and recounts in detail the history industry religion language education literature and culture of this enduring society The book concludes with an analysis of the Lemko s current political and cultural situation

Ethnic Groups of Europe Jeffrey E. Cole, 2011-05-25 This comprehensive survey of ethnic groups of Europe reveals the dynamic process of ethnic identity and the relationship of ethnic groups to modern states Part of a five volume series on ethnic groups around the world *Ethnic Groups of Europe An Encyclopedia* provides detailed descriptions of more than 100 European ethnic and national groups Each entry provides an overview of the group as well as in depth information on the group s origins and early history cultural life and recent developments Among the information presented for each group are global and national population figures and accounts of geographical distribution diaspora populations the group s historic homeland predominant religions and languages and related groups The entries also highlight places people and events of particular importance to each group and sidebars introduce related topics of interest Throughout the text special attention is focused on the relationship between ethnicity and nationalism An explanation of the methodology used for selecting the ethnic groups in the encyclopedia is also provided as is an introductory essay on the topic of ethnicity in Europe

Hierarchy and Pluralism A. Pasieka, 2015-03-18 What is the place of pluralism in the context of a dominant religion How does the perception of religion as tradition and culture affect pluralism Why do minorities demands for recognition often transform into exclusion Through her ethnography of a multireligious community in rural Poland Agnieszka Pasieka demonstrates how we can better understand the nature of pluralism by examining how it is lived and experienced within a homogenous society Painting a vivid picture of everyday interreligious sociability Pasieka reveals the constant balance of rural inhabitants between ideas of sameness and difference and the manifold ways in which religion informs local cooperation relations among neighbors and friends and common attempts to make pluralism The book traces these developments through several decades of the community s history unveiling and exposing the paradoxes inscribed into the practice and discourse of pluralism and complex processes of negotiation of social identities

The Palgrave Handbook of Slavic Languages, Identities and Borders Tomasz Kamusella, Motoki Nomachi, Catherine Gibson, 2016-04-29 This book

analyzes the creation of languages across the Slavophone areas of the world and their deployment for political projects and identity building mainly after 1989 It offers perspectives from a number of disciplines such as sociolinguistics socio political history and language policy Languages are artefacts of culture meaning they are created by people They are often used for identity building and maintenance but in Central and Eastern Europe they became the basis of nation building and national statehood maintenance The recent split of the Serbo Croatian language in the wake of the break up of Yugoslavia amply illustrates the highly politicized role of languages in this region which is also home to most of the world s Slavic speakers This volume presents and analyzes the creation of languages across the Slavophone areas of the world and their deployment for political projects and identity building mainly after 1989 The overview concludes with a reflection on the recent rise of Slavophone speech communities in Western Europe and Israel The book brings together renowned international scholars who offer a variety of perspectives from a number of disciplines and sub fields such as sociolinguistics socio political history and language policy making this book of great interest to historians sociologists political scientists and anthropologists interested in Central and Eastern Europe and Slavic Studies *Crossings and Crosses* Jenny Berglund,Thomas Lundén,Peter Strandbrink,2015-05-19 Dealing with different regions and cases the contributions in this volume address and critically explore the theme of borders educations and religions in northern Europe As shown in different ways and contrary to popular ideas there seems to be little reason to believe that religious and civic identity formation through public education is becoming less parochial and more culturally open Even where state borders are porous where commerce culture and trade as well as associative personal and social life display stronger liminal traits normative education remains surprisingly national This situation is remarkable and goes against the grain of current notions of both accelerating globalisation and a European regional renaissance The book also takes issue with the foundational tenet that liberal democracies are by definition uninvolved in matters concerning faith and belief Instead an implied conclusion is that secular liberal democracy is less than secular and liberal at least in education which is a major arena for political cultural ethical socialisation as it aims to confer worldviews and frameworks of identity on young people who will eventually become full citizens and bearers sharers of prevailing normative communities **The Polish Review** ,1956 Échanger les peuples Catherine Gousseff,2015-09-23 En 1944 alors que les Allemands entament leur retraite g n ralis e du front oriental le pouvoir sovi tique d cide d un transfert massif de populations pour faire concorder la carte ethnique avec les nouvelles fronti res l Est Il s agit d changer les populations ukrainiennes vivant dans les limites de la nouvelle Pologne avec les Polonais des territoires de l Ukraine redessin e De 1944 1946 pr s de deux millions de personnes d sempar es se croisent en route vers leur patrie Face aux groupes nationalistes arm s aux nombreux r fractaires au d part les repr sentants des autorit s tant polonaises que sovi tiques sont tiraill s entre les ordres d en haut et les r alit s locales Comment a t on proc d pour engager sur une base th oriquement volontaire et bilat rale ce chass crois de minorit s partir d archives et de t moignages in dits Catherine Gousseff

the Inklings were an informal literary discussion group associated with J. R. R. Tolkien and C. S. Lewis at the University of Oxford for nearly two decades between the early 1930s and late 1949. The Inklings were literary enthusiasts who praised the value of narrative in fiction and encouraged the writing of fantasy. The best known apart from Tolkien and Lewis were Charles Williams and Althous.
