Envisioning Asia Jeanette Roan,2010-05-07 Whereas some other scholars read selected films mainly to illustrate political arguments Roan never loses sight of the particularities of film as a distinctive cultural form and practice Her drive to see cinema as a mechanism of American orientalism results in not just a textual analysis of these films but also a history of their material production and distribution Josephine Lee University of Minnesota Envisioning Asia offers an exciting new contribution to our understandings of the historical developments of American Orientalism Jeannette Roan deftly situates changing cinematic technologies within the context of U S imperial agendas in this richly nuanced analysis of shooting on location in Asia in early 20th century American cinema Wendy Kozol Oberlin College Through her vivid illustration of the role of American cinema in the material visual and ideological production of Asia Jeanette Roan takes the reader on a journey to Asia through a very different route from the virtual travel taken by the viewers of the films she discusses Mari Yoshihara University of Hawai i at Manoa The birth of cinema coincides with the beginnings of U S expansion overseas and the classic Hollywood era coincides with the rise of the United States as a global superpower In Envisioning Asia Jeanette Roan argues that throughout this period the cinema's function as a form of virtual travel coupled with its purported authenticity served to advance America's shifting interests in Asia Its ability to fulfill this imperial role depended however not only on the cinematic representations themselves but on the marketing of the films production histories and in particular their use of Asian locations Roan demonstrates this point in relation to a wide range of
