Less Than Human Why We Demean Enslave And Exterminate Others:

Less Than Human David Livingstone Smith, 2024-09-04 A revelatory look at why we dehumanize each other with stunning examples from world history as well as today's headlines Winner of the 2012 Anisfield Wolf Book Award for Nonfiction Smith's compelling study and his argument that the study of dehumanization be made a global priority to prevent future Rwandas or Hiroshimas is well made and important Publishers Weekly Brute Cockroach Lice Vermin Dog Beast People often regard other members of humankind as less than human and use terms like these for those whom they wish to harm enslave or exterminate Dehumanization has made atrocities like the Holocaust the genocide in Rwanda and the slave trade possible But it isn't just a relic of the past We still find it in war genocide xenophobia and racism Smith shows that it is a dangerous mistake to think of dehumanization as the exclusive preserve of Nazis communists terrorists Jews Palestinians or any other monster of the moment We are all potential dehumanizers just as we are all potential objects of dehumanization *Less Than Human* is the first book to illuminate precisely how and why we sometimes think of others as subhuman creatures It draws on a rich mix of history evolutionary psychology biology anthropology and philosophy to document the pervasiveness of this phenomenon describe its forms and explain why we so often resort to it *Less Than Human* is a powerful and highly original study of the roots of human violence and bigotry and it is as timely as it is relevant Smith offers an impressively thorough survey of dehumanization as it has been deployed against Jews African Americans and other Others as an accompaniment to exploitation and extermination Los Angeles Review of Books

On Inhumanity David Livingstone Smith, 2020-05-25 Throughout the darkest moments of human history evildoers have convinced communities to turn on groups that are regarded as in some way other and by starting to think of them as less than human persecute or even eliminate them We can all recognize the unfathomable evils of dehumanization in slavery the Holocaust the Rwandan genocide and the Jim Crow South but we are not free from its power today With climate change and political upheaval driving millions of refugees worldwide to leave their homes we are likely to see more and more of this ugly and persistent phenomenon What are we to do Drawing on his deep and wide ranging knowledge of the history psychology and politics of dehumanization David Livingstone Smith shows us how to recognize it and how to fight back

The Uneasy Conscience of a White Christian Clifford Williams, 2021-12-17 Do White people bear moral responsibility for racial disparities Are White Christians under a spiritual mandate to make racial equity a priority Clifford Williams taught philosophy at Christian colleges for many years including a course on race He has journeyed alongside students as they gained insights about racism In this book he draws from deeply personal stories as he shows the need for White Christians to recognize the impact of racism and to cultivate key character traits which enable them to pursue racial equity In succinct and thoughtful prose interwoven with first person accounts of racialized experiences by people of color Williams describes the importance of the Golden Rule the power and effects of racial socialization and the harm racism does to those who harbor it He asks the haunting question Why

do White people react so strongly to Black power He explains why widespread church integration in the United States may never exist He unpacks the concept of White identity and links police brutality to faulty moral perception This book gently explains what White Christians need to do to make racial equity a priority **Embodied Difference** Jamie A.

Thomas, Christina Jackson, 2019-02-20 Focusing on the body as a visual and discursive platform across public space we study marginalization as a sociocultural practice and hegemonic schema Whereas mass incarceration and law enforcement readily feature in discussions of institutionalized racism we differently highlight understudied sites of normalization and exclusion Our combined effort centers upon physical contexts skeletons pageant stages gentrifying neighborhoods discursive spaces medical textbooks legal battles dance pedagogy vampire narratives and philosophical arenas morality genocide physician assisted suicide cryonic preservation transfeminism to deconstruct seemingly intrinsic connections between body and behavior Whiteness and normativity **Political Tribalism in America** Timothy J. Redmond, 2022-10-27 The democratic ideal demands that the citizenry think critically about matters of public import Yet many Democrats and Republicans in the United States have fallen short of that standard because political tribalism motivates them to acquire perceive and evaluate political information in a biased manner The result is an electorate that is more extreme hostile and willing to reject unfavorable democratic outcomes In this work the author provides a host of actionable strategies that are designed to reduce the influence of political tribalism in our lives The text includes instructions for plumbing the depths of political views evaluating sources of political information engaging in difficult political conversations appraising political data and assessing political arguments The first of its kind this how to guide is a must read for partisans who want to become more critical political thinkers White Work and Reparative Genealogy Mary Watkins, 2025-09-13

What does it mean to reckon with a legacy of white supremacy White Work and Reparative Genealogy invites white identifying readers on a courageous journey into the heart of ancestral memory historical accountability and racial repair Clinical psychologist Mary Watkins traces her family's lineage from 1607 Jamestown through generations of slave ownership and racial violence in the American South Blending personal narrative historical research and psychological insight Watkins models a practice of white work a form of reparative genealogy that confronts the silences and distortions in white family histories With reflective questions at the end of each chapter this book offers practical tools for readers ready to explore their own histories and take action toward racial justice This is a book for those who seek to move through guilt and shame not around them toward healing solidarity and shared liberation **Don't Look, Don't Touch** Valerie Curtis, 2013-09-26

Every flu season sneezing coughing and graphic throat clearing become the day to day background noise in the workplace And coworkers tend to move as far and as quickly away from the source of these bodily eruptions as possible Instinctively humans recoil from objects that they view as dirty and even struggle to overcome feelings of discomfort once the offending item has been cleaned These reactions are universal and although there are cultural and individual variations by and large we are all disgusted by the same things In Don't Look

Don't Touch Don't Eat Valerie Curtis builds a strong case for disgust as a shadow emotion less familiar than love or sadness it nevertheless affects our everyday lives In disgust biological and sociocultural factors meet in dynamic ways to shape human and animal behavior Curtis traces the evolutionary role of disgust in disease prevention and hygiene but also shows that it is much more than a biological mechanism Human social norms from good manners to moral behavior are deeply rooted in our sense of disgust The disgust reaction informs both our political opinions and our darkest tendencies such as misogyny and racism Through a deeper understanding of disgust Curtis argues we can take this ubiquitous human emotion and direct it toward useful ends from combating prejudice to reducing disease in the poorest parts of the world by raising standards of hygiene Don't Look Don't Touch Don't Eat reveals disgust to be a vital part of what it means to be human and explores how this deep seated response can be harnessed to improve the world Jacket

Inventing Reality Jeffrey Schrank, 2020-03-15 You are a reality inventor People simply don't give you enough credit in fact you don't appreciate your own creative ability What does it mean to be a reality inventor Isn't reality simply stuff that's out there We see hear taste feel and smell it but we certainly don't invent it This book claims that you do Humans are animals who create stories We are unable to not story we speak and think in stories called sentences INVENTING REALITY explores the psychology of story making and confabulation We confabulate

when we create stories without an awareness of our authorship These confabulations are not perceived as invented stories instead they become our personal reality Beyond Atheism, Beyond God Philip A. Stahl, 2013-08-19 In his new study *Beyond Atheism Beyond God* author Philip A Stahl uses atheism as a rational stepping stone to arrive at an emergent conception of the universe exposing features that might be described as transcendent He presents an impersonal approach to Being that is devoid of any specific religious overtones or affiliations Each person becomes a quantum based co creator in his or her own right according to physicist Henry Stapp As such we are able to thereby see ourselves and our humanity in a new light as opposed to being merely reactive cogs in a vast mechanical reductionist machine Effectively we emerge as much more than assemblies of molecules This volume the fourth and final entry in Stahls series on atheism seeks to arrive at a transcendent concept of being that also surpasses absolutism and naive or dogmatic deity templates It considers the development of a more realistic cogent and effective ethics and morality less likely to be exploited by the power mongers or sacred source apologists and it answers the question of whether God exists though not in the way one would normally assume

Belonging without Othering john a. powell,Stephen Menendian,2024-04-23

The root of all inequality is the process of othering and its solution is the practice of belonging We all yearn for connection and community but we live in a time when calls for further division along the well wrought lines of religion race ethnicity caste and sexuality are pervasive This ubiquitous yet elusive problem feeds on fears created inherited of the other While the much touted diversity equity and inclusion initiatives are undeniably failing and activists narrowly focus on specific and sometimes conflicting communities Belonging without Othering prescribes a new approach that encourages us to turn toward one another in unprecedented and radical ways The pressures that separate us have a common root our tendency to cast people and groups in irreconcilable terms or the process of othering This book gives vital language to this universal problem unveiling its machinery at work across time and around the world To subvert it john a powell and Stephen Menendian make a powerful and sweeping case for adopting a paradigm of belonging that does not require the creation of an other This new paradigm hinges on transitioning from narrow to expansive identities even if that means challenging seemingly benevolent forms of community building based on othering As the threat of authoritarianism grows across the globe this book makes the case that belonging without othering is the necessary but not the inevitable next step in our long journey toward creating truly equitable and thriving societies The authors argue that we must build institutions cultivate practices and orient ourselves toward a shared future not only to heal ourselves but perhaps to save our planet as well Brimming with clear guidance sparkling insights and specific examples and practices Belonging without Othering is a future oriented exploration that ushers us in a more hopeful direction

Faith, War, and Violence Gabriel R. Ricci,2017-09-08

Faith War and Violence analyzes the age old links between religion and violence perpetrated in the name of God and the role religion performs in politically infusing the state with romantic spiritualism The volume examines instances of this phenomenon from ancient Rome to the modern day it finds that religion inspired violence is not restricted to Abrahamic faiths or to one geographic region The fact that symbolically charged religious violence has destructive consequences is not lost on contributors to Faith War and Violence Among the subjects tackled are the ideological and religious foundations that inspired the founders of Al Qaeda and its role in the Arab Spring the long history of religious conflict in Ireland known as the Troubles Sikh extremism and the evolution of the Christian approach to war As the contributors demonstrate in Western societies the unity of religious fervor and warmongering stretches from Constantine s incorporation of Christian symbols into

Roman army flags to slogans like Gott mit uns God is with us which appeared on the belt buckles of German soldiers in World War I In recent years George W Bush declared the war on terror a crusade and his speechwriter David Frum coined the religiously inspired term Axis of Evil to describe Iraq and other countries opposing the United States The Aims of Higher Education Harry Brighouse, Michael McPherson, 2015-05-07 In this book philosopher Harry Brighouse and Spencer Foundation president Michael McPherson bring together leading philosophers to think about some of the most fundamental questions that higher education faces Looking beyond the din of arguments over how universities should be financed how they should be run and what their contributions to the economy are the contributors to this volume set their sights on higher issues ones of moral and political value The result is an accessible clarification of the crucial concepts and goals we so often skip over even as they underlie our educational policies and practices The contributors tackle the biggest questions in higher education What are the proper aims of the university What role do the liberal arts play in fulfilling those aims What is the justification for the humanities How should we conceive of critical reflection and how should we teach it to our students How should professors approach their intellectual relationship with students both in social interaction and through curriculum What obligations do elite institutions have to correct for their historical role in racial and social inequality And perhaps most important of all How can the university serve as a model of justice The result is a refreshingly thoughtful approach to higher education and what it can and should be doing Forming a Global Community Joseph de Rivera, 2022-10-18 To address global problems such as pandemics widening economic inequality mass migration and widespread terrorism Joseph de Rivera argues that we must form a global community A community of eight billion humans is difficult to conceive However it can be imagined and created if we transform our understanding of who humans are and what community entails We can understand who persons are how they are motivated and how a community can be conceived in a way that offers an alternative to individualism and collectivism The mutualism that is proposed provides a moral compass for navigating the challenges that confront us and encourages specific governing structures political economies and rituals that will further the formation of a global community Based on the philosophical analysis of John Macmurray the author's argument relies on an extensive review of the current literature on self personhood emotional motivation social identity forms of community and religious and secular rituals Interdisciplinary in nature it aims to direct philosophy and the social sciences to the challenges of globalism and the creation of a global community
