Differentiating Instruction for Gifted Learners Christine L. Weber, Wendy A. Behrens, Cecelia Boswell, 2021-09-03

Differentiating Instruction for Gifted Learners allows educators and stakeholders to examine issues related to differentiating curriculum and instruction in a variety of contexts The case studies in this rich resource analyze various differentiation strategies and their benefits to promote classrooms where every student belongs every student is valued and every student is nurtured The cases facilitate conversations about children and their unique needs by situating learning in authentic and meaningful contexts with the goal of helping educators improve services and programs for gifted and talented students Things to Consider guide the reader s thinking without imparting an explicit action recommendation or solution Discussion questions activities extensions and suggestions for additional readings support the standards of excellence set forth in the revised NAGC CEC Teacher Preparation Standards in Gifted and Talented Education and the NAGC CEC Advanced Standards in Gifted Education Teacher Preparation Classroom Pedagogy and Primary Practice David

McNamara, Professor David McNamara, 2002-01-04 In this provocative book David McNamara argues that a teacher centred approach to teaching in the primary school especially in the later years is actually in the best interests of the children that the teacher must be seen to have ultimate responsibility for what and how children learn He attempts to define the distinctive professional expertise of the primary teacher the application of subject knowledge within the special circumstances of the classroom and to show how this expertise can be articulated to establish a body of educational knowledge which is both derived from practice and practically useful to others At a time when increasing emphasis is being placed on the role of the practising teacher as a mentor in initial teacher education this book will help teachers at all levels to define their own role in the creation of educational knowledge *The Indiana Religion Studies Project, Sample Lesson Plan* Gloria Hasler, 1978

Impacts of Globalization and Innovation in Mathematics Education Njurai, Evelyn, Uworwabayeho, Alphonse, 2024-07-18

In the face of emerging challenges in the field of mathematics education educators and researchers find themselves

navigating the complexities of globalization and innovations As classrooms become more diverse and educational landscapes evolve there is a need for an understanding of the multifaceted impacts of these forces The very essence of mathematics education is shifting influenced by global trends cultural dynamics and technological advancements It is within this context that Impacts of Globalization and Innovation in Mathematics Education offers a profound exploration of the challenges and opportunities that arise in this era One of the central predicaments faced by educators and scholars is the dynamic nature of globalization and innovation which introduces unprecedented complexities in mathematics education While cultural diversity in classrooms brings valuable perspectives it also poses challenges in developing inclusive and effective teaching strategies The integration of innovative practices faces resistance due to cultural conflicts and identity issues Additionally the fast paced changes in global trends and the dissemination of information through media influence how mathematics education is perceived and practiced This creates a demand for a thorough examination of the relationship between globalization innovation and the field of mathematics education
