Let Someone Hold You The Journey Of A Hospice Priest:

Let Someone Hold You Paul F. Morrissey, 1994 The hospice patients Paul introduces to us in *Let Someone Hold You* will not soon be forgotten They are Jesus in his distressing disguise today a person with AIDS a Hispanic Jewish Irish black poor or rich person They are of different faith traditions but their common mortality unites them These are stories of the spiritual healings and physical deaths occurring at this very moment If you attend carefully to the next beat of your heart you can sense this call for mercy from every corner of the universe

Somebody's Knocking at Your Door Harold G Koenig, Carole B Weatherford, Ronald J Weatherford, 2013-10-08 Examining the black church's response to AIDS *Somebody's Knocking at Your Door* AIDS and the African American Church analyzes sexual ethics and homophobia in the black church to provide pastors social workers and health professionals with intervention strategies for parishioners or members of the community who have AIDS By discussing the church's historic and successful activism and its relationship to the community along with AIDS statistics relevant theologies and other AIDS ministries this book suggests the benefits of increased church involvement versus other agencies or organizations *Somebody's Knocking at Your Door* will help you develop prevention education and pastoral care programs that will alert individuals to the risks of AIDS and will offer people with AIDS the comfort and assistance they need in coping with the disease Through the voices of leading clergy AIDS advocates and people living with AIDS PLWAs this book calls on the African American church to become more involved in helping communities deal with the disease *Somebody's Knocking at Your Door* offers you ideas on how to improve the lives of individuals with AIDS through the church including welcoming PLWAs into the church through announcements by local media church newsletters and Sunday bulletins offering AIDS support groups at the church or loaning office space equipment or clerical assistance to AIDS organizations recognizing the power of intercessory prayer for PLWAs caring for PLWAs by delivering meals to their homes preparing meals at the church and developing a transportation network that will take parishioners to doctor appointments church or on recreational outings preparing meals running errands housekeeping handling paperwork negotiating legal issues and offering friendship possible components of volunteer buddy programs for homebound PLWAs training pastors clergy and Sunday school teachers to educate ministries on AIDS in the African American community sexual intimacy intravenous drug use and needle sharing monogamy community resources and condom use Since some clergy still believe that AIDS is a gay disease *Somebody's Knocking at Your Door* discusses the issue of homosexuality within the church By analyzing passages from the Bible the authors refute the belief that homosexuals were neglected by God and undeserving of care and love This belief according to the authors inhibits some churches and individuals from discussing HIV AIDS because of fear they would also be acknowledging homosexuality Highlighting AIDS ministries throughout the United States *Somebody's Knocking at Your Door* encourages the African American church to confront the issue of AIDS and understand that the disease can affect anyone This book will give you the necessary strategies for starting and implementing AIDS

ministries and intervention programs that will educate and support your community *AIDS Narratives* Steven F. Kruger, 2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual's bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it

Death and Dying John F. Szabo, 2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In *Death and Dying An Annotated Bibliography of the Thanatological Literature* John F. Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill
