Dear HR Manager,

I am seeking a marketing learnership and heard about for your company from your ad in "Marketing Times". I am currently a junior at University of "City", pursuing a degree in Marketing channels. I'm very interested in joining your team and using my social networking and direct marketing knowledge in a cutting-edge company like "Name of the company".

As the Vice-President of Membership for the campus marketing club, I have contributed to attracting 30% more members using Facebook and Twitter to reach out to students across our campus. For my project in Marketing Research, I analyzed the marketing campaigns of several of the employers who recruit on our campus to see which methods were most effective for increasing student turnout at their events. Based on these experiences, I have developed a strong understanding of how to connect with the college age community which I am sure would be helpful to your clients. I am looking for an opportunity to develop these skills further and learn more about the marketing business by joining "Name of company" as a summer intern. I will be able to start work in June.

I have included my CV and look forward to talking to you in more detail about how I might contribute to your team. I will contact you within two weeks to set up an interview at your convenience.

Out of Place Nuraan Davids,2022-06-17 Out of Place offers an in depth exploration of Nuraan Davids experience as a Muslim coloured woman traversing a post apartheid space It centres on and explores a number of themes which include her challenges not only as a South African citizen and within her faith community but as an academic citizen at a historically white university The book is her story an autoethnography her reparation By embarking on an auto ethnography she not only tries to change the way her story has been told by others transforms her sense of what it means to live Bhabha 1994 She is driven by a postcolonial appeal which insists that if she seeks to imprint her own way of life into the discourses which pervade the world around her then she can no longer allow herself to be spoken on behalf of or to be subjugated into the hegemonies of others The main argument of Out of Place is that Muslim coloured women are subjected to layers of scrutiny and prejudices which have yet to be confronted What we know about Muslim coloured women has been shaped by preconceived notions of otherness and attached to a meta narrative of oppression and backwardness By centring and using her lived experiences the author takes readers on a journey of what it is like to be seen in terms of race gender and religion not only within the public sphere of her professional identities but within the private sphere of her faith community
