His Mistress For A Million:

In order to save up the money she needs to fly home to Australia she starts a job as a live-in housekeeper at a hotel. One day Greek billionaire Andreas Xenides seizes control of the hotel which means Cleo is out of a job so she asks Andreas for his assistance finding another one. A smile spreads across his charming face as he proposes a deal that would solve her money problems. All she has to do is pose as his girlfriend and she'll be paid a million dollars. **Human**

Frailties Ronald J. Burke, Suzy Fox, 2016-05-13 Every day we hear stories about the consequences of human frailties for individuals, their families and friends and their organizations. Some of these stories are about alcohol and drug addiction and other harmful lifestyle choices but human frailty also leads to all kinds of unethical and illegal behaviour. Individuals are convicted of bribery and corruption, price fixing, theft and fraud, sexual harassment and abuse of authority. Politicians fiddle their expenses, sportspeople cheat and fix matches and school and university students and teachers cheat to enhance exam results. Studies have shown that business students cheat more than others and efforts to teach ethical behaviour in business schools make little difference. The media who bring us stories of others' frailties themselves engage in unethical and illegal conduct in pursuit of an edge over their rivals. The contributions to this latest addition to Gower's Psychological and Behavioural Aspects of Risk Series place the spotlight on individuals, their behavioural choices and the consequences that follow for their and others' lives and careers. The conclusion is that people do have choices and options and that whilst there are no easy or quick fixes in addressing self-limiting behaviours, successful avoidance of the worst outcomes can be achieved. This book provides guidance on the practical steps that need to be taken in order to gain a sense of proportion of what is important and of how we are doing if we are to address our frailties and stop making unethical choices.

Corruption and Market in Contemporary China Yan Sun, 2018-08-06 Is corruption an inevitable part of the transition to a free market economy? Yan Sun here examines the ways in which market reforms in the People's Republic of China have shaped corruption since 1978 and how corruption has in turn shaped those reforms. She suggests that recent corruption is largely a byproduct of post-Mao reforms spurred by the economic incentives and structural opportunities in the emerging marketplace. Sun finds that the steady retreat of the state has both increased mechanisms for cadre misconduct and reduced disincentives against it. Chinese disciplinary offices, law enforcement agencies and legal professionals compile and publish annual casebooks of economic crimes. The cases processed in the Chinese penal system represent offenders from party-state agencies at central and local levels as well as state firms of varying sizes and types of ownership. Sun uses these casebooks to illuminate the extent and forms of corruption in the People's Republic of China. Unintended and informal mechanisms arising from corruption may she finds take on a life of their own and undermine the central state's ability to implement its developmental policies, discipline its staff, enforce its regulatory infrastructure and fundamentally transform the economy.
