Histoire Admirable Maladie Prodigieuse Pierre:

The Encyclopedia Of Witchcraft & Demonology Rossell Hope Robbins, 2022-03-29 With research sourced by the world's greatest libraries Robbins has compiled a rational balanced history of 300 years of horror concentrated primarily in Western Europe Spanning from the 15th century through the 18th century the witch hunt frenzy marks a period of suppressed rational thought never before have so many been so wrong To better understand this phenomenon Robbins examines how the meaning of witch has evolved and exposes the true nature of witchcraft a topic widely discussed in popular culture though remarkably misunderstood First published in 1959 Robbins encyclopedia remains the most authoritative and comprehensive body of information about witchcraft and demonology ever compiled in a single volume Lavishly acclaimed in academic and popular reviews this full scale compendium of fact history and legend covers about every phase of this fascinating subject from its origins in the medieval times to its last eruptions in the 18th century Accompanying the text are 250 illustrations from rare books contemporary prints and old manuscripts many of which have been published here for the first time

Archives historiques du Poitou Paul Guérin, 1895 Recueil des documents concernant la commune et la ville de poitiers in v 44 *Thinking with Demons* Stuart Clark, 1999 This is a work of fundamental importance for our understanding of the intellectual and cultural history of early modern Europe Stuart Clark offers a new interpretation of the witchcraft beliefs of European intellectuals based on their publications in the field of demonology and shows how these beliefs fitted rationally with many other views current in Europe between the fifteenth and eighteenth centuries Professor Clark is the first to explore the appeal of demonology to early modern intellectuals by looking at the books they published on the subject during this period After examining the linguistic foundations of their writings the author shows how the writers ideas about witchcraft and about magic complemented their other intellectual commitments in particular their conceptions of nature history religion and politics The result is much more than a history of demonology It is a survey of wider intellectual and ideological purposes and underlines just how far the nature of rationality is dependent on its historical context **Histoire admirable de la maladie prodigieuse de Pierre Creusé...** , 1881 *Witchcraft* Cornell University.
