Historische Variationen Sebastian Haffner, 2003 *The Cultural Construction of Monstrous Children* Simon Bacon, Leo Ruickbie, 2020-09-30 The Cultural Construction of Monstrous Children raises important questions at the heart of society and culture and through an interdisciplinary trans cultural analysis presents important findings on socio cultural representations and embodiments of the child and childhood At the start of the 21st new anxieties constellate around the child and childhood while older concerns have re emerged mutated and grown stronger But as historical analysis shows they have been ever present concerns This innovative and interdisciplinary collection of essays considers examples of monstrous children since the 16th century to the present spanning real life and popular culture to exhibit the manifestation of the Western cultural anxiety around the problematic anomalous child as naughty dangerous or just plain evil The book takes an inter and multidisciplinary approach drawing upon fields as diverse as sociology psychology film and literature to study the role of the child and childhood within contemporary Western culture and to see the historic ways in which each discipline intersects and influences the other *Magic of Nature* Heinz Schott, 2018-01-17 What does magic of nature mean Starting with the placebo effect and its relevance for biomedical research and clinical practice of today this treatise focusses on diverse historical concepts of the healing power of nature This topos was fundamental for natural medicine life reform movement suggestive therapy hypnotism romantic natural philosophy and mesmerism Such a retrospection leads to the crucial concept of natural magic Latin *magia naturalis* which was essential for early modern medicine and natural science At that time Nature Latin *natura* was revered as a divine creator of natural things in the service of God as a mediator of His wisdom for the inquiring humans So Nature was personified in many ways as a wise woman or magician mystically adored by alchemists At the end the study returns to the present age It reflects critically modern sexology and sexual medicine confronting them with certain spritually guided practices of sexual magic The 68 supplementary image pages stand for themselves displaying an emblematic subtext Each of them tells an own story and is more or less self explaining **The Occult Nineteenth Century** Lukas Pokorny, Franz Winter, 2021-01-09 The nineteenth century witnessed a proliferation of alternative religious currents and practices appropriating earlier traditions entangling geographically distinct spiritual discourses and crafting a repository of mindscapes eminently suitable to be accommodated by later generations of thinkers and practitioners Penned by specialists in the field this volume examines important themes and figures pertaining to this occult amalgam and its resonance into the twentieth century and beyond Global guises of the occult ranging from the Americas and Europe to India are variously addressed with special attention to the crucial role of mesmerism and the origins of modern yoga Möglichkeitsräume Christina Lechtermann, 2007 **Bridging Traditions** Karen Hunger Parshall, Michael T. Walton, Bruce T. Moran, 2015-06-01 Bridging Traditions explores the connections between apparently different zones of comprehension and experience magic and experiment alchemy and mechanics practical mathematics and

geometrical mysticism things earthy and heavenly and especially science and medicine by focusing on points of intersection among alchemy chemistry and Paracelsian medical philosophy In exploring the varieties of natural knowledge in the early modern era the authors pay tribute to the work of Allen Debus whose own endeavors cleared the way for scholars to examine subjects that were once snubbed as suitable only to the refuse heap of the history of science Islamic Philosophy and Occidental Phenomenology on the Perennial Issue of Microcosm and Macrocosm Anna-Teresa Tymieniecka, 2006-09-22 By proposing the Microcosm and Macrocosm analogy for dialogue between Islamic Philosophy and Occidental Phenomenology the authors of this volume are reviving the perennial positioning of the human condition in the play of forces within and without the human being This theme has run from Plato through the Middle Ages Renaissance and Modernity and has been ignored by contemporaries It now acquires a new pertinence and striking significance due to the scientific discoveries into the infinitely small in life on the one hand and the prodigious technological discoveries of the infinitely great on the other Both open up undreamt of prospects for the continuing conquest of cosmic forces The human person thrown into turmoil by the new approaches to life and needing to acquire new habits of mind having lost security of all beliefs desperately seeks a new clarification of the Human Condition within the unity of everything there is of cosmic forces and of his destiny The dialogue between Islamic Philosophy and phenomenology of life can show the way Papers by Gholam Reza A awani Mehdi Aminrazavi Roza Davari Ardakani Mohammad Azadpur Gary Backhaus Marina Banchetti Robino William Chittick Seyed Mostafa Muhaghghegh Damad Golamhossein Ebrahimi Dinani Nader El Bizri Kathleen Haney Salahaddin Khalilov Sayyid Mohammad Khamenei Mahmoud Khatami Mieczyslaw Pawel Migon Nikolay Milkov Sachiko Murata Anna Teresa Tymieniecka Daniela Verducci The Renaissance of the Levant Michael Kreutz, 2019-03-18 Since the Mediterranean connects cultures Mediterranean studies have by definition an intercultural focus Throughout the modern era the Ottoman Empire has had a lasting impact on the cultures and societies of the Southern and Eastern Mediterranean However the modern Balkans are usually studied within the context of European history the southern Mediterranean within the context of Islam Although it makes sense to connect both regions this is a vast field and requires a command of different languages not necessarily related to each other Investigating both Greek and Arabic sources this book will shed some light on the significance of ideas in the political transitions of their time and how the proponents of these transitions often became so overwhelmed by the events that they helped trigger adjustments to their own ideas Also the discourses in Greek and Arabic reflect the provinces of the Ottoman Empire and it is instructive to see their differences and commonalities which helps explain contemporary politics **Doing Justice to a Wronged Literature: Essays on Arabic Literature and Rhetoric of the 12th-18th Centuries in Honour of Thomas Bauer** ,2022-08-22 Doing Justice to a Wronged Literature is a Festschrift for the Arabist and Islamicist Thomas Bauer It includes 17 essays by established academics on various themes and aspects of Arabic literature and rhetoric of the Ayyubid Mamluk and Ottoman periods 12th 18th centuries Notoriously neglected and

maligned by earlier scholarship Arabic literature and rhetoric of the 12th 18th centuries is an understudied area of Arabic studies that Thomas Bauer has over the last two decades succeeded in developing and promoting A tribute to his pioneering work on this field the contributions highlight the wealth complexity and importance of Arabic literature and rhetoric of the said period by offering close readings of paradigmatic texts or examining specific topics and trends in larger corpora

Mediality on Trial Ehler Voss,2020-09-21 This volume addresses controversies connected to the testing of the capacities and potentials of mediums Today we commonly associate the term medium with the technical communication between transmitters and receivers Yet this term likewise applies to those who cooperate with agencies that exceed the presumed domain of the material world Insofar as one presumes a division between distinctly opposed categories of religion and the secular technical media tend to be associated with the secular and human trance mediums tend to be associated with religion after 1900 This volume concerns the ways in which the term medium still marks an overlapping of and thus problematizes the aforementioned division between religion and the secular the personal and the technological The term medium carries with it a seed of doubt that is itself inseparable from investment in the medium s power insofar as they communicate with an other realm mediums offer the hope and promise of new possibilities and improved efficiency and thus of a better life yet they have simultaneously been under suspicion of altering or even inventing the messages they communicate It is due to this combination of promise and suspicion that mediumism has tended to evoke scientific religious and moral controversies Thus we can speak of a mediumistic trial that is a process in which a medium is put to the test concerning its potentials and trustworthiness Around 1800 experts were asked if a modern secular institution would be capable of inspiring domesticating or excluding trance mediumship This question has stayed with us ever since and the answers have remained inconclusive

That is why the past and present of mediumship may be asked to elucidate each other **Historische Sprachwissenschaft**
