Benson,2008-08-15 Barbara P Benson introduces a system of teaching and learning that both teacher and students can benefit from The system is based on four practices and these are integrated with tests Theatre in a Media Culture Amy Petersen Jensen,2014-11-04 As the media have increasingly become the lens through which we see the world media styles have shaped even the fine arts and contemporary theatre is particularly indebted to mass media s dramatic influence In order to stay culturally and financially viable theatre producers have associated theatrical productions and their promotion with film television and the Internet by adopting new theatrical practices that mirror the form and content of mass communication This work demonstrates how mediatization or the adoption of the semantics and the contexts of mass media has changed the way American theatre is produced performed and perceived Early chapters use works like Robert Wilson s 3D digital opera *Monsters of Grace* and Thecla Schophorst s digitally animated *Bodymaps* to demonstrate the shifting nature of live performance Critical analysis of the interaction between the live performer and digital technology demonstrates that the use of media technology has challenged and changed traditional notions of dramatic performance Subsequent discussion sustains the argument that theatre has reconfigured itself to access the economic and cultural power of the media Final chapters consider the extent to which mediatization undermines theatrical authorship and creativity Effective Grading Barbara E. Walvoord, Virginia Johnson Anderson,2011-01-13 The second edition of *Effective Grading* the book that has become a classic in the field provides a proven hands on guide for evaluating student work and offers an in depth examination of the link between teaching and grading Authors Barbara E Walvoord and Virginia Johnson Anderson explain that grades are not isolated artifacts but part of a process that when integrated with course objectives provides rich information about student learning as well as being a tool for learning itself The authors show how the grading process can be used for broader assessment objectives such as curriculum and institutional assessment This thoroughly revised and updated edition includes a wealth of new material including Expanded integration of the use of technology and online teaching A sample syllabus with goals outcomes and criteria for student work New developments in assessment for grant funded projects Additional information on grading group work portfolios and service learning experiences New strategies for aligning tests and assignments with learning goals Current thought on assessment in departments and general education using classroom work for program assessments and using assessment data systematically to close the loop Material on using the best of classroom assessment to foster institutional assessment New case examples from colleges and universities including community colleges When the first edition of *Effective Grading* came out it quickly became the go to book on evaluating student learning

This second edition especially with its extension into evaluating the learning goals of departments and general education programs will make it even more valuable for everyone working to improve teaching and learning in higher education L Dee Fink author *Creating Significant Learning Experiences* Informed by encounters with hundreds of faculty in their workshops these two accomplished teachers assessors and faculty developers have created another essential text Current faculty as well as graduate students who aspire to teach in college will carry this edition in a briefcase for quick reference to scores of examples of classroom teaching and assessment techniques and ways to use students classroom work in demonstrating departmental and institutional effectiveness Trudy W Banta author *Designing Effective Assessment*

The Griffith Project, Volume 11 Paolo Cherchi Usai, 2019-07-25 No other silent film director has been as extensively studied as D W Griffith However only a small group of his more than five hundred films has been the subject of a systematic analysis and the vast majority of his other works still await proper examination For the first time in film studies the complete creative output of Griffith from *Professional Jealousy* 1907 to *The Struggle* 1931 will be explored in this multivolume collection of contributions from an international team of leading scholars in the field Created as a companion to the ongoing retrospective held by the Pordenone Silent Film Festival the Griffith Project is an indispensable guide to the work of a crucial figure in the arts of the nineteenth century
