Porter, Zachary K. Dawson, 2021-06-07 This third volume like its predecessors adds to the growing body of literature concerned with the history of biblical interpretation With eighteen essays on nineteen biblical

interpreters volume 3 expands the scope of scholars both traditional and modern covered in this now multivolume series Each chapter provides a biographical sketch of its respective scholar s an overview of their major contributions to the field explanations of their theoretical and methodological approaches to interpretation and evaluations and applications of their methods By focusing on the contexts in which these scholars lived and worked these essays show what defining features qualify these scholars as pillars in the history of biblical interpretation While identifying a scholar as a pillar is somewhat subjective this volume defines a pillar as one who has made a distinctive contribution by using and exemplifying a clear method that has pushed the discipline forward at least within a given context and time period This volume is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the field of biblical studies has developed and how certain interpreters have played a formative role in that development *Late Georgian and Regency England, 1760-1837* Robert A. Smith,2004-07-08 A guide to historical literature on England between 1760 and 1837 emphasising more recent work *An Immigration History of Britain* Panikos Panayi,2014-09-11 Immigration ethnicity multiculturalism and racism have become part of daily discourse in Britain in recent decades yet far from being new these phenomena have characterised British life since the 19th century While the numbers of immigrants increased after the Second World War groups such as the Irish Germans and East European Jews have been arriving settling and impacting on British society from the Victorian period onwards In this comprehensive and fascinating account Panikos Panayi examines immigration as an ongoing process in which ethnic communities evolve as individuals choose whether to retain their ethnic identities and customs or to integrate and assimilate into wider British norms Consequently he tackles the contradictions in the history of immigration over the past two centuries migration versus government control migrant poverty versus social mobility ethnic identity versus increasing Anglicisation and above all racism versus multiculturalism Providing an important historical context to contemporary debates and taking into account the complexity and variety of individual experiences over time this book demonstrates that no simple approach or theory can summarise the migrant experience in Britain *The Oxford History of Classical Reception in English Literature* Patrick Cheney,Philip Hardie,2015-10-29 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the

classical originals as it does on the English writers own cultural context This second volume covers the years 1558 1660 and explores the reception of the ancient genres and authors in English Renaissance literature engaging with the major and many of the minor writers of the period including Shakespeare Marlowe Spenser and Jonson Separate chapters examine the Renaissance institutions and contexts which shape the reception of antiquity and an annotated bibliography provides substantial material for further reading *The Demand for Religious Equality* ,1859 Monuments and Memory in Early Modern England Peter Sherlock,2016-12-05 Funeral monuments are fascinating and diverse cultural relics that continue to captivate visitors to English churches yet we still know relatively little about the messages they attempt to convey across the centuries This book is a study of the material culture of memory in sixteenth and seventeenth century England By interpreting the images and inscriptions on monuments to the dead it explores how early modern people wanted to be remembered their social vision cultural ideals religious beliefs and political values Arguing that early modern English monuments were not simply formulaic statements about death and memory Dr Sherlock instead reveals them to be deliberately crafted messages to future generations Through careful reading of monuments he shows that much can be learned about how men and women conceived of the world around them and shifting concepts of gender social order and the place of humans within the universe In post Reformation England the dead became superior to the living as monuments trumpeted their fame and their confidence in the resurrection This study aims to stimulate historians to attempt to reconstruct and engage with the world view of past generations through the unique and under utilised medium of funeral monuments In so doing it is hoped that more light may be shed on how memory was created controlled and contested in pre modern society and encourage the on going debate about the ways in which understandings of the past shape the present and future Edinburgh History of the British and Irish Press, Volume 2 David Finkelstein,2020-01-10 This is a unique collection of essays examining nineteenth century British and Irish newspaper and periodical history during a key period of change and development Bookseller and Print Dealers Weekly ,1928 The Documentary History of the Supreme Court of the United States, 1789-1800: Cases, 1798-1800 Maeva Marcus,1985 The Publishers' Circular and Booksellers' Record ,1909
