Hellenistic Dimensions of the Gospel of Matthew Robert S. Kinney, 2016-04-11 In the search for Matthean theology scholars overwhelmingly approach the Gospel of Matthew as the most Jewish Gospel Studies of its Sitz im Leben focus on its relationship to Judaism whether arguing from the perspective that Matthew wrote from a cloistered Jewish community or as the leader of a Gentile rebellion against such a Jewish community While this is undoubtedly an important and necessary discussion for understanding the Gospel it often assumes too much about the relationship between Judaism and Hellenism via Martin Hengel Robert S Kinney argues for a hybridized perspective in which Matthew's attention to Jewish sources and ideas is not denied but in which echoes of Greek and Roman sources can be observed focusing on identifying Matthew's use of rhetoric and its possible echoes of Greco Roman philosophical disciple gathering teachers

How Christianity Built Western Civilization Dr. Alex Locay, 2022-01-05 Today the voices from the secular left are hard at work removing any trace of religion from government and the law Meanwhile secular historians have successfully limited Christianity's contribution in history to the Crusades and Inquisitions as if that is all Christians have to speak for The real story is quite different primarily that everything good in Western Civilization has its roots in the Christian religion How Christianity Built Western Civilization is the epic tale of how our Christian forefathers

stood up to history's darkest forces to forge a new way of life grounded in the biblical worldview. Over the centuries it has become evident that Western Civilization has emerged as mankind's greatest achievement. It is here where the greatest political and economic systems were born and here that we see the concept of human rights emerge along with the modern scientific process and the greatest discoveries. It is in the West that we find the most advanced educational institutions along with the greatest charities, artistic masterpieces and architectural innovations. Is this a coincidence or the deliberate result of our worldview? How Christianity Built Western Civilization answers this question with chapters on human rights, modern science, universal education, charity, art and architecture, focusing entirely on the revolutionary milestones and individuals that made these achievements possible. Each chapter unfolds chronologically, starting with the biblical foundation and moving through the work of the early and Medieval Church, arriving at modern times. The author builds a compelling case demonstrating how Western Civilization would be indistinguishable from India, China or Africa today if not for the teachings of Christ and the Bible.

A History of World Societies, Volume 2: Since 1450 John P. McKay, Bennett D. Hill, John Buckler, Roger B. Beck, Clare Haru Crowston, Patricia Buckley Ebrey, Merry E. Wiesner-Hanks, 2011-10-05. A History of World Societies introduces students to the global past through social history and the stories and voices of the people who lived it. Now published by Bedford St Martin's and informed by the latest scholarship, the book has been thoroughly revised with students in mind to meet the needs of the evolving course. Proven to work in the classroom, the book's regional and comparative approach helps students understand the connections of global history while providing a manageable organization. With more global connections and comparisons, more documents, special features and activities that teach historical analysis and an entirely new look, the ninth edition is the most teachable and accessible edition yet. The Classical Debt Johanna Hanink, 2017-05-22. Greek debt means one thing to the country's creditors. But for millions who prize culture over capital, it means the symbolic debt we owe Greece for democracy, philosophy, mathematics and fine art. Johanna Hanink shows that our idealized image of ancient Greece dangerously shapes our view of the country's economic hardship and refugee crisis.
