Malayalam Verbs Amanda Swenson,2019-09-23 This book using Malayalam as a case study provides an in depth exploration of how inflectional suffixes should be separated from the verb and the implications this has for the syntax and semantics Past work has proposed that Malayalam lacks a Tense Phrase and tense morphology i.e. is tenseless However this book shows that Malayalam behaves differently from other tenseless languages and that it does have tense morphology It also provides evidence that there is a Tense Phrase in the syntax In addition it examines what have been called the two imperfectives and argues that one is a type of progressive while the other is a pluractional marker and shows that Malayalam lacks perfect morphology and a Perfect Phrase in minimally Universal perfects With respect to finiteness among other things it argues that Conjunctive Participles are best analyzed as a type of absolutive adjunct and that *athu gerunds* involve nominalization above the Tense Phrase level This book will be a valuable resource for anyone interested in cross linguistic variation in Tense Aspect Modality and or the morphosyntax or morphosemantics of Dravidian languages *Persuasive*
