Keesings Historisch Archief 1974:

The Netherlands and the Oil Crisis Duco Hellema, 2025-10-01 The Netherlands played a remarkable role during the October War and the oil crisis of 1973 In secret the Dutch government sent a substantial amount of ammunition and spare parts to Israel The Dutch supported Israel also politically Within the EC they vetoed a more pro Arab policy The Arab oil producing countries punished The Netherlands by imposing an oil embargo The embargo against the Netherlands was intimidating The Netherlands was dependent on Arab oil The embargo seemed to threaten the Dutch position in the international oil sector The government introduced several measures to reduce oil consumption However within two months it became clear that oil continued to arrive in Rotterdam There was in fact no oil shortage in the Netherlands The Netherlands even profited from the oil crisis The energy situation in The Netherlands was much better than in other West European countries The Dutch therefore rejected French plans for a more interventionist energy policy Atlanticism and liberalism were the key words of the Dutch policy during the oil crisis This book is the result of intensive research in all relevant Dutch archives The authors had free access to all the files they wanted to see They also used resources from other countries involved Many politicians were interviewed The result is a surprising analysis of the oil crisis of 1973 and of the Dutch role in particular

The European Union Walter van Gerven, 2005-03-21 This book provides a general introduction to the European Union EU as an ever closer union of states and peoples It describes how from its origin in 1958 as an economic community of six states the EU has grown into a political entity of 25 states with a population of more than 450 million It also explains the constitution making process that is currently taking place with a draft constitution now being submitted for ratification by the 25 member states The book shows how the distinctive features of a democratic polity that characterize the separate EU member states are gradually replicated in the European Union and how the Union is on its way to becoming a democratic polity of its own kind Van Gerven writes from a legal perspective with an eye to political theory and recent American and European history and with a diverse readership from both sides of the Atlantic in mind

Ministère des affaires étrangères, du commerce extérieur et de la coopération au développement,1978 Political Terrorism A.J. Jongman,2017-07-28 While there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of Political Terrorism was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against **Censorship of Historical Thought** Antoon De Baets,2001-12-30 History is an important dangerous and fragile subject Historical thought can be censored in widely diverging political and historiographical contexts as historians are well aware Yet the problems of censorship often thought to be obvious are rarely studied Filling a significant void this guide supplies information on the censorship of historical thought and the fate of persecuted historians in over 130 countries from Afghanistan to Zimbabwe and from 1945 to 2000 With each entry providing a chronological overview of cases and giving a full listing of sources the book is the first systematic effort to overview the repression of historical thought Aiming to encompass all countries in which censorship and persecution have taken place De Baets sketches a world map of repression that goes beyond the well known and well studied cases It assembles scattered data from three types of sources the works of censors and censored historical and biographical dictionaries and historiographical surveys and reports from international human rights organizations Showing the universality of historical censorship and its infinite variety in amount and degree the book also provides a basis for further comparative research **Memo from Belgium** ,1978 *Future of the Welfare State* W. Albeda,Mark D. Ten Hove,1986 The welfare state as we know it today is in a crisis There are many reasons for this and it is surely not the result of just one or two of the causes mentioned in this volume But whether it is due

to the financial crisis and whether temporary by nature the question arises as to what to do about it When for example the social security system has obviously been over stretched we have to decide on what to do next abolition of the total security system reshape it or simply cut back on a few items And if so which items And how do we deal with the legitimacy crisis or if it exists the institutional one The answers to most of these questions have ideological implications and are fundamental to the future of the welfare state Tussen wens en werkelijkheid Frank Zuijdam,2002 **Directory of European political**

Elections to the European Parliament Juliet Lodge,Valentine Herman,1982-02-25 **Al eeuwenlang een gastvrij volk** Rob Witte,2010 In 2008 ontstaat discussie over de vraag of de moord op Kerwin Duinmeijer op 20 augustus 1983 wel als racistisch te bestempelen is Deze discussie wordt aangejaagd door een net verschenen documentaire over de dader In 1983 bestond nauwelijks discussie over de vraag of hier sprake was geweest van een racistische moord In april 2008 stelt Rita Verdonk tijdens de startbijeenkomst van haar beweging Trots op Nederland dat Nederlanders het helemaal niet in zich hebben te discrimineren en dus ook niet racistisch gewelddadig te zijn Wij zijn al eeuwenlang een gastvrij volk zo meent zij Hoe komt het dat 25 jaar na dato het racistische karakter van de moord op Kerwin in twijfel wordt getrokken En is het inderdaad waar dat discriminatie laat staan racistisch geweld geen onderdeel uitmaakt van de Nederlandse historie In dit

boek wordt aangetoond dat dit dominante Nederlandse zelfbeeld niet klopt Racistisch geweld is een hardnekkig probleem in de hier besproken periode van 1950 tot en met 2009 In reactie op incidenten bestaat echter een grote neiging tot bagatelliseren en om het structurele karakter van dit geweld te ontkennen En juist die overheidsreactie heeft grote invloed op de wijze waarop dit geweld de kop opsteekt en blijft voortduren Het boek stemt tot nadenken zo stelt Ronald Bandell in 2009 burgemeester van Dordrecht en voorzitter van het Nederlands Genootschap van Burgemeesters in zijn voorwoord Hij spreekt van een conclusie die lang nadreunt en waarvan iedere bestuurder kennis zou moeten nemen

De Wetenschap der Politiek Bart Tromp, 2007-02-01 Het doel van dit boek is om de lezers kennis te laten maken met de wetenschap der politiek In zestien hoofdstukken komen de belangrijkste thema's uit de politiek en de politieke wetenschappen aan de orde Tezamen geven deze hoofdstukken geen volledig overzicht maar wel een goede indruk van de onderwerpen waarmee beoefenaren van deze wetenschap zich mee bezig houden Onder meer de volgende onderwerpen worden belicht het begrip politiek verschillende benaderingen van politiek het begrip macht staatsvormingsprocessen en hun resultaten partijen en sociale bewegingen
