Los sueños en las psicosis Juan Pablo De Arriba, 2021-12-09 La obra que se leer a continuación formidable por su originalidad por su rigor técnico y su precisión en las argumentaciones técnicas resulta ser el producto de un minucioso estudio profundizado a lo largo de años de trabajo con la psicosis Sin embargo es necesario advertirle al lector lo que no va a encontrar en estas páginas por más que se esfuerce en buscarlo no encontrará el repertorio sobre las psicosis elaborado con aquella cita recopilada en la enseñanza de Lacan o ese otro párrafo de la obra freudiana al que nos tienen acostumbrados algunos textos de parroquia no encontrará el catálogo de un saber ya constituido sobre la forclusión los registros los nudos los desencadenamientos o las suplencias como tampoco hallar el recurso fácil a la enumeración de preguntas sin respuestas a la vista Las auténticas preguntas nos dice Kovadloff tan inusuales como decisivas son aquellas que se desvelan por dar vida a lo que todavía no lo tiene aquellas que aspiran a aferrar lo que por el momento es inabarcable aquellas que se inquietan por construir el conocimiento en lugar de adquirirlo hecho Y es ese en efecto el espíritu con el que el autor trabaja el texto que aquí nos ofrece Con estricta rigurosidad y en excelente prosa se nos presenta una investigación sobre las psicosis y su técnica circunscripta al texto de sus sueños sin perder de vista el fondo de la trama subjetiva en la que se tejen En algún sentido estamos en presencia del testimonio de un analista que no retrocede ante la palabra del psíquico ni ante el texto de sus sueños y hace suyo aquel postulado freudiano según el cual el sueño es un acto psíquico de pleno derecho con su lugar propio dentro del acontecer psíquico del individuo Del Prólogo del Prof Dr Omar Mosquera *Los sueños imposibles* Sinesio Domínguez Suria, 2006

La interpretación sociológica de los sueños Bernard Lahire, 2023-11-24 Históricamente los sueños han sido objeto de estudio de todas las ramas posibles de la psicología del psicoanálisis a la psicología cognitiva pasando por la neuropsiquiatría La sociología en cambio ha sido una de las grandes ausentes en el análisis de esta expresión humana a un tiempo seductora e inquietante Con La interpretación sociológica de los sueños Bernard Lahire busca llenar este vacío y sentar las bases de lo que él mismo llama una fórmula general de interpretación de los sueños Para ello Lahire no solo señala los errores y las limitaciones del psicoanálisis y retoma los avances científicos alcanzados a partir de la aparición de La interpretación de los sueños sino que además entra en la lógica misma de la producción de los sueños y los relaciona con las experiencias que los individuos tienen en la realidad social De esta manera Lahire extiende el campo de estudio de la sociología a una hasta ahora tierra incógnita y abona a la transformación y al avance de esta disciplina social al darle nuevos objetivos y al dotarle de nuevas herramientas de trabajo
