War on Autism Anne McGuire,2016-04-28 War on Autism examines autism as a historically specific and power laden cultural phenomenon that has much to teach about the social organization of a neoliberal western modernity Bringing together a variety of interpretive theoretical perspectives including critical disability

studies queer and critical race theory and cultural studies the book analyzes the social significance and productive effects of contemporary discourses of autism as these are produced and circulated in the field of autism advocacy Anne McGuire reveals how in the field of autism advocacy autism often appears as an abbreviation its multiple meanings distilled to various red flag warnings in awareness campaigns bulleted biomedical facts in information pamphlets or worrisome statistics in policy reports She analyzes the relationships between these fragmentary enactments of autism and traces their continuities to reveal an underlying powerful and ubiquitous logic of violence that casts autism as a pathological threat that advocacy must work to eliminate Such logic McGuire contends functions to delimit the role of the good autism advocate to one who is positioned against autism Book jacket Autism, Pedagogy and Education Carmel Conn,2019-11-01 This book discusses critical issues concerning autism and education and what constitutes effective pedagogy for this group of learners Autism is a high profile area within the discipline of special education and the issue of how to teach autistic learners remains a contested one recent theorising has questioned a techno rationalist approach that places the burden of change on the autistic pupil The author explores the values that underpin educational approaches within existing pedagogical practice while these approaches have their individual merits and shortcomings this book introduces and expands upon a strengths based approach This book will appeal to students and scholars of autism and education with particular regard to teaching autistic learners **Talking with Children** Amelia Church,Amanda Bateman,2022-06-30 Early childhood teachers know that the quality of child teacher interactions has an impact on children s social and educational outcomes Talking with children is central to early learning but the significant details of high quality conversations in early childhood settings are not always obvious This Handbook brings together experts from across the globe to share evidence of teachers talking with children in early learning environments It applies the methodology of conversation analysis to questions about early childhood education and shows why this method of studying discourse can be a valuable resource for professional development in early childhood Each chapter of this Handbook includes an up to date literature review shows how interactional pedagogy can be achieved in everyday interactions and demonstrates how to apply this learning in practice It offers unique insights into real life early childhood education practices based on robust research findings and provides practical advice for teaching and talking with children *Disability as Meta Curriculum* Gillian Parekh,Elizabeth J. Grace,Nirmala Erevelles,2023-03-31 This edited book makes an epistemic claim that disability studies approaches to curriculum are doing more than merely critiquing how privileged knowledge excludes disability from curriculum theory and praxis The scholars in this volume argue instead that Disability Studies embodies an epistemic space that not only demonstrates its difference from the normative curriculum it exceeds curriculum s confining boundaries Thus they argue for a curriculum about curriculum one that critically investigates the epistemological ontological and pedagogical claims of the normative curriculum from the critical standpoint of disability Conceptualizing curriculum as cultural politics each chapter offers a theorization of disability via a critical intersectional lens

that addresses the following questions What are the epistemological barriers possibilities encountered when disability is brought into the intellectual ambit of curriculum theory What would curriculum theory look like if disabled people re imagined the curriculum What is the link between curriculum and conceptions of specialized programming for students identified as disabled And most critically how do approaches to schooling and conceptions of ability within curriculum studies enact forms of racism sexism and heteronormativity as well as are complicit in the construction and removal of the disabled body from mainstream education This book was originally published as a special issue of the journal Curriculum Inquiry
