Hippias Minor Platón, 2015-07-20 Hippias Minor or On Lying is thought to be one of Plato's early works Socrates matches wits with an arrogant polymath who is also a smug literary critic Hippias believes that Homer can be taken at face value and that Achilles may be believed when he says he hates liars whereas Odysseus resourceful behavior stems from his ability to lie well 365b Socrates argues that Achilles is a cunning liar who throws people off the scent of his own deceptions and that cunning liars are actually the best liars Consequently Odysseus was equally false and true and so was Achilles 369b Socrates proposes possibly for the sheer dialectical fun of it that it is better to do evil voluntarily than involuntarily His case rests largely on the analogy with athletic skills such as running and wrestling He says that a runner or wrestler who deliberately sandbags is better than the one who plods along because he can do no better
