Micro Middle Ages Paul Edward Dutton, 2023-10-30 *Micro Middle Ages* brings together five microhistorical case studies focusing on small or seemingly inconsequential evidence that leads to broader conclusions about medieval history and the way we do and understand history in general Paul Dutton provides an overview of microhistorical approaches and theorizes about its use in pre modern history As opposed to studying history from above or history from below Dutton shows the advantages for historians of doing history from the inside out starting from some single overlooked but potentially knowable thing delving deep inside and then reattaching it to its time and place Such

an approach has one abiding advantage its insistence on being grounded in the particularity of the evidence The book highlights what the microhistorical is its conceptual and practical challenges Dutton argues that the attention to the micro has always been with us and is a constitutive cognitive part of who we are as human beings *Peter Abelard and Heloise* David Luscombe,2018-12-20 These essays provide original reflections and new evidence for the lives and work of an outstanding medieval couple Peter Abelard and Heloise The main themes of the author s studies are the careers and the thought of Peter Abelard his philosophy theology and monastic teaching his relationship in marriage and in religious life with Heloise and their correspondence The essays now brought together in a single volume show how much is still to be learned from the presentation of new evidence and the opening of new enquiries about the lives and calamities of Peter Abelard and Heloise

in the fifteenth from an ancient universe without heaven and hell to a medieval cosmos with a fiery inferno and a shimmering paradise Over these centuries there is an emphasis on individual men and women and their stories woven together with the story of the emergence of a distinctive western culture Michel Foucault Philip Barker,2020-07-24 This unique and original study analyzes Foucault's interaction with the history of ideas undertaking a genealogy of the subject that subverts conventional philosophical history to develop a distinctly Foucauldian intellectual history Through a detailed account of Foucault's work and its relation to the history of ideas Philip Barker shows how that history can be usefully reconceptualised using Foucault's concepts of genealogy and archaeology Locating the emergence of self reflexive consciousness in twelfth century philosophy and elaborating upon autobiography as a philosophical persona Barker argues that this extremely productive approach can be used to analyze the relationship between the history of philosophy psychoanalysis and the transparent subject **Choosing Not to Marry** Julie Bond Hassel,2002 This study concerns the earliest English literature encouraging women not to marry the Katherine Group It is a set of five early thirteenth century devotional texts a sermon called Hali Meidhad Holy Virginitie the lives of three early Christian virgin martyrs Katherine Margaret and Juliana and an allegory Sawles Warde Care of the Soul All of the texts celebrate virginity but they do so in a novel way Unlike other virginity literature which focuses on the sacred benefits that come to women who do not marry these texts argue that marriage harms women and they focus on the material advantages of not marrying They are profoundly non mystical articulating the values of self sufficiency and self determination Placing the Katherine Group within the male clerical tradition of Jerome and Peter Abelard a tradition whose concerns about marriage and domesticity have not been much appreciated before the author shows how the texts of the Katherine Group operate not as part of a female mystical tradition but within the male clerical tradition of anti matrimonial literature *Friendship in the Middle Ages and Early Modern Age* Albrecht Classen,Marilyn Sandidge,2011-03-29 Although it seems that erotic love generally was the prevailing topic in the medieval world and the Early Modern Age parallel to this the Ciceronian ideal of friendship also dominated the public discourse as this collection of essays demonstrates Following an extensive introduction the individual contributions explore the functions and the character of friendship from Late Antiquity Augustine to the 17th century They show the spectrum of variety in which this topic appeared not only in literature but also in politics and even in painting *Medieval Religion* Constance Hoffman Berman,2004-08-02 Constance Hoffman Berman presents an indispensable collection of the most influential and revisionist work to be done on religion in the Middle Ages in the last two decades Bringing together an authoritative list of scholars from around the world this book is a comprehensive compilation of the most important work in this field Medieval Religion provides a valuable service for all those who study the Middle Ages church history or religion **Letters of Peter Abelard, Beyond the Personal** Peter Abelard,2008 The popularity of the personal letters has generated considerable fanfare for the publication of another set of correspondence printed under the title The Lost Love Letters of Heloise and Abelard The

authorship of all these letters has been contested repeatedly with the last mentioned collection being the center of a present firestorm

The I.B.Tauris History of Monasticism G.R. Evans, 2015-12-22 From the earliest centuries of the church asceticism and the contemplative life have been profoundly important aspects of western Christianity And in assessing the glories of western civilization perhaps the best place to start is within medieval monastic institutions not outside of them For while monasteries withdrew from the main currents of their societies until the rise of universities in the 12th century they provided fertile soil and sanctuary to the liberal arts and sciences as well as those who wanted to spend their lives focused upon God They became the driving cultural forces of Europe nurturing education music manuscript illumination art and history agriculture animal husbandry all in addition to spiritual guidance In this first general history of monasticism since 1900 Andrea Dickens explores the cloistered communities and individuals who have aspired to the ascetic ideal in their religious life assessing the impact they have made on the wider church and its practices She discusses some of the best known names in Christian history including Cuthbert Columba Hilda of Whitby Peter Abelard and Thomas Merton and traces the monastic impulse from its beginnings in the Egyptian desert through the Rule of St Benedict Cluny's foundation in 910 the austerity of the Cistercians the legacy of women's houses the critique of Luther and Calvin Trappists and Catholic reform up to the present day ecumenical Taizé community Offering a lively and informed overview of western monasticism the book will be essential reading for students of history and religion as well as the lay reader

Historia Calamitatum Peter Abelard, 2025-04-07 Historia Calamitatum by Peter Abelard stands as one of the most remarkable medieval autobiographies offering an extraordinary window into 12th century intellectual life and personal tragedy Written circa 1132 as a consolation letter to an unnamed friend this foundational text combines philosophical depth with raw emotional honesty chronicling Abelard's rise as a revolutionary scholastic philosophy teacher and his catastrophic fall through his infamous relationship with Heloise The narrative unfolds through Abelard's relentless intellectual battles his explosive Paris lectures that attracted thousands his methodological innovations in Sic et Non and his bitter disputes with traditionalists like William of Champeaux The memoir's centerpiece remains his passionate affair with Heloise his brilliant student their secret marriage her uncle Fulbert's violent revenge Abelard's castration and their subsequent monastic separations Abelard portrays these events not as mere misfortunes but as existential crises forcing deeper engagement with faith and reason Beyond the Abelard and Heloise drama the work documents crucial developments in medieval education church politics and the birth of universities Abelard's descriptions of teaching debates at Melun and Corbeil reveal the ferment of early scholasticism while his account of the Council of Soissons 1121 exposes the perilous relationship between innovative thinkers and ecclesiastical authority Modern readers will recognize proto modern themes of academic freedom gender dynamics in education and the psychological toll of intellectual isolation

Medieval Knighthood V S. D. Church, Stephen Church, Ruth Harvey, 1995 Examines a wide variety of the aspects of knighthood ranging from its emergence as an identifiably noble estate to the

appropriation of chivalric trappings to serve bourgeois interests The Silent Masters Peter Godman, 2012-01-06 In the tension between competing ideas of authority and the urge to literary experiment writers of the High Middle Ages produced some of their most distinctive achievements This book examines these themes in the high culture of Western Europe during the eleventh and twelfth centuries showing how the intimate links between the writer and the censor the inquisitor and the intellectual developed from metaphors at the beginning of the period to institutions at its end All Latin texts from Peter Abelard to Bernard of Clairvaux from the Archpoet to John of Salisbury and Alan of Lille are translated into English and discussed both in terms of their literary qualities and in relation to the cultural history of the High Middle Ages Not a proto Renaissance but part of a continuity that reached into the Reformation the eleventh and twelfth centuries witnessed a transformation of the writer's role With a combination of literary philological and historical methods Peter Godman sets the work of major intellectuals during this period in a new light
