Language across neurodevelopmental disorders Marisa Filipe, Lénia Carvalhais, Leonard Abbeduto, Sónia Frota, 2023-03-13

Identifying Gifted Students Susan K. Johnsen, 2021-09-09 This revision of Identifying Gifted Students A Practical Guide is aligned with both the updated National Association for Gifted Children NAGC Pre K Grade 12 Gifted Programming Standards and the NAGC and The Association for the Gifted Council for Exceptional Children CEC TAG professional development standards This book is relevant in any state or setting that intends to meet these national standards and uses multiple assessments to identify gifted students within an increasingly diverse population Designed for practicing professionals such as teachers counselors psychologists and administrators Identifying Gifted Students addresses definitions models and characteristics of gifted students qualitative and

quantitative approaches to assessment culturally fair and nonbiased assessment and how to evaluate the effectiveness of identification procedures In addition the book provides an updated summary of all major assessment instruments including scoring information reliability and validity Remote Online Language Assessment: Eliciting Discourse from Children and Adults Natalia Gagarina,Angel Chan,Wenchun Yang,2024-08-20 Being able to collect valid data is crucial for empirical science disciplines such as linguistics developmental psycholinguistics clinical psycholinguistics and speech and hearing sciences In recent years there has been an increasing use of digital devices for remote language assessments such as online elicitation of language samples apps for eliciting expressive and productive lexical abilities and online questionnaires With the ongoing COVID 19 pandemic still affecting many lives globally there have been numerous disruptions of face to face in person language assessments leading many researchers to conduct their language assessments online Despite the necessity of remote language assessments and the convenience they may bring to both assessors and assessees the potential merits limits and problems of remote testing have not yet been systematically explored and understood This timely Research Topic seeks contributions that mobilize new evidence and or insightful and nuanced discussions to address questions such as can we control online testing so that it is as good as face to face in person testing and if so how Do we have evaluative evidence of such practices and if so how robust is the evidence What adaptations and concerns can and cannot be accommodated at the present time What opportunities are offered by recent technological advances Are there certain conditions in which online testing works better or worse Last but not least how do differences between offline in person language assessments and online remote assessments affect the results of testing The current topic has two main foci the first deals with the assessment of conversational discourse in general and narrative discourse in particular in both children and young adults Communicative competence at the discourse level has been considered an essential and ecologically valid component in language assessments of children and adults for three key reasons 1 this competence is crucial for an individual s everyday functioning and academic and social life 2 it provides information about an individual s socio cognitive and linguistic abilities and 3 it is a versatile test of language skills at the levels of content form use and their integration The second focus is on comparing the results elicited via in person assessments and remote online assessments This Research Topic welcomes empirical articles discussing new evidence perspective and opinion papers on issues at the conceptual methodological interface and methods articles presenting approaches that can offer opportunities for remote testing of developmental discourse supported by recent technological advances Potential themes may include but are not limited to comparisons of remote versus in person testing modes using a within participants research design learner variables such as age gender language status monolingual multilingual and clinical status typically developing children and adults children and adults with clinical conditions such as developmental language disorder autism spectrum disorder which may affect the efficacy of remote testing linguistic variables such as the use of referential and relational devices and mental state language which may

be subject to more variations when being assessed remotely new methods that offer opportunities for the remote testing of developmental and adult discourse supported by recent technological advances articles addressing the same research question within developmental narrative discourse but using different i e either online or offline research methods

Essentials of Psychological Tele-Assessment A. Jordan Wright, Susan Engi Raiford, 2021-02-03 Discover a comprehensive and practical guide to the use of tele assessments in psychological testing from two leading voices in psychology *Essentials of Psychological Tele Assessment* delivers a primer on the current state of professional knowledge related to psychological tele assessment ranging from the ethical and empirical considerations to the practical applications of tele assessment procedures The overarching framework encourages the balancing of the limitations of the current state of the research literature with the very real needs for assessment services to continue even when in person procedures are not feasible This book includes discussion on a broad range of tests and measures with information related to both the state of the empirical support for tele tests and measures with information related to both the state of the empirical support for tele assessment utilizing them and the practical how to for administering scoring and interpreting data that emerge from them Additionally frameworks for integrating the data that emerge from tele assessment procedures are discussed The book is applicable to those transitioning to tele assessment practice and those training in a wide variety of training programs Readers will also benefit from the inclusion of Practical checklists and information about specific tests must be adapted to the realities of the tele health environment Information about how the results of tests should be interpreted differently to account for the tele health environment Case examples and studies to illustrate many of the challenges of working in tele assessment Guidance on how to balance the limitations of the state of the empirical literature on the validity of tele assessment with the real world needs of clients Perfect for psychologists and trainees in a variety of health services including clinical counseling school and forensic psychology *Essentials of Psychological Tele Assessment* will also earn a place in the libraries of anyone utilizing or training in cognitive developmental neuropsychological psychoanalytic psychodynamic and interpersonal models of psychological assessment
