Biology Sylvia S. Mader, 2005-07 The laboratory exercises in this manual are coordinated with Human Biology a text that has two primary functions: 1 to understand how the human body works and 2 to understand the relationship of humans to other living things in the biosphere. This laboratory manual can be adapted to a variety of course orientations and designs. There are a sufficient number of laboratories to permit a choice of activities over the length of the course. Many activities may be performed as demonstrations rather than as student activities thereby shortening the time required to cover a particular concept. Lab Manual for Human Biology Sylvia S.
