Human Development Robert V. Kail, John C. Cavanaugh, 2010 The authors provide theoretical and empirical foundations that enable students to become educated critical interpreters of developmental information A blend of basic and applied research as well as coverage of controversial topics and emergent trends demonstrates connections between the laboratory and life **Textbook of Human Development □ A Lifespan Development Approach** Srivastava Sushila & Rani, Sudha K., Textbook of Human Development A Lifespan Development Approach

Life-span Development Leonie Sugarman, 2004-03-01 This thorough revision of the highly successful first edition of Life Span Development offers the reader a wide ranging and thought provoking account of human development throughout the lifespan The lifespan approach emphasises that development does not stop when we cease to be adolescents but goes on throughout adulthood and into old age In initial chapters Leonie Sugarman outlines the issues surrounding the notion of development and how it can be studied including reviews of the work of key theorists Erikson Levinson and Gould She goes on to consider the different ways in which the life course can be construed as a series of age related stages as a cumulative sequence as a series of developmental tasks as a series of key life events and transitions or as a narrative construction which creates a sense of dynamic continuity A final chapter looks at how people cope the resources that are available and the theoretical and practical issues regarding interventions to assist them in the process New to this edition is increased coverage of the topical issue of successful ageing and a new chapter on the increasingly popular narrative approach to lifespan development This edition is also more student friendly with exercises in self reflection that encourage the reader to look at the development of their own lives or those of their current or future clients Boxed material highlighting major theories and clarifying concepts is also included This book will be invaluable for students of developmental and occupational psychology and professionals in the fields of health management education and social work Human Behavior Theory and Applications Elizabeth

DePoy, Stephen French Gilson, 2011-09-21 In Human Behavior Theory and Applications authors Elizabeth DePoy and Stephen Gilson use a critical thinking approach to engage students to think in depth about theory and its use in social work practice With a strong focus on diversity this book expands its theory coverage to include progressive and the most cutting edge contemporary thinking The authors skillfully introduce theory critically examine each theory including developmental theories environmental theories diversity theories systems theories and new and emerging theories and then apply each theory to social work practice providing a synthesis of classical and contemporary theory for scholarly analysis and application to professional intellectual and social action *Children, Cities, and Psychological Theories* Dietmar Görlitz, Hans Joachim Harloff, Günter Mey, Jaan Valsiner, 2012-10-25 No detailed description available for Children Cities and Psychological Theories **Handbook of Psychology, Developmental Psychology** Irving B.
