The Lincoln Assassination The assassination of Abraham Lincoln on April 14 1865 and his death at 7 22 am on April 15 is covered in this first novel His funeral train back home is narrated along with the ending punishment phase of the conspirators Much of the life of Jefferson Davis is brought to life including how the United States didn't fly a flag at half mast honoring him He was the only former Secretary of War not given this respect in the history of the United States BOOK 2 PURSUIT AND CAPTURE OF JOHN WILKES BOOTH General Robert E Lee said There's a terrible war coming These young men who have never seen War can't wait for it to happen But I tell you I wish that I owned every slave in the South for I would free them all to avoid this War This novel will follow John Wilkes Booth and the federal forces extensive manhunt to capture him Still there are questions In the memoirs of one of the soldiers who captured the assassin said the man they killed had a red mustache Booth's of course was black BOOK 3 LEWIS THORNTON POWELL The Conspiracy to Kill Abraham Lincoln Winston Churchill once said History is written by the victors From all indication enough preliminary witnesses placed Lewis Thornton Powell in the same room with Secretary of State Seward William E Doster took over representation for the defense of Powell Doster was a graduate of Yale and Harvard and the former provost marshal for the District of Columbia BOOK 4 KNIGHTS OF THE GOLDEN CIRCLE A Most Secretive Organization This book is more of a reference manual for writing the other four novels in the series You can't understand the Lincoln Assassination without an understanding of the Knights of the Golden Circle the most powerful and secret society in all America at the time of the Civil War The organization grew out of Southern Rights Clubs in the South who were mostly interested in opening up more territory to slavery The actual words written in this reference novel were written by a member of the Order who never revealed his name BOOK 5 MARY ELIZABETH SURRATT First Woman Executed by the Federal Government The entire court case for Mary Elizabeth Surratt is depicted in this novel the fifth novel in the Lincoln Assassination Series The reader can follow the trial and determine for themselves from the evidence and the testimony of the witnesses if she should be found guilty or innocent A military tribunal rather than a civilian court was chosen as the prosecutorial venue Why President Andrew Johnson did not declare an end to the War Between the States until August 1866 Was Mary Elizabeth Surratt in the wrong place at the wrong time Was the United States Government out for revenge out for blood President Andrew Johnson said Mary Elizabeth Surratt kept the nest that hatched the egg This quote suggests that Johnson was bolstering his belief that she was guilty and deserved the harshest sentence allowed An exciting conclusion in this five novel series on the Lincoln Assassination

The Organizational Complex Reinhold Martin, 2005-09-23 A historical and theoretical analysis of corporate architecture in the United States after the Second World War The Organizational Complex is a historical and theoretical analysis of corporate architecture in the United States after the Second World War Its title refers to the aesthetic and technological extension of the military industrial complex in which architecture computers and corporations formed a network of objects images and discourses that realigned social relations and transformed the postwar landscape In depth case studies of architect Eero Saarinen's work for General Motors IBM and Bell Laboratories and analyses of office buildings designed by Skidmore Owings Merrill trace the emergence of a systems based model of organization in architecture in which the modular curtain wall acts as both an organizational device and a carrier of the corporate image Such an image of the corporation as a flexible integrated system is seen to correspond with a humanization of corporate life as corporations decentralize both spatially and administratively Parallel analyses follow the assimilation of cybernetics into aesthetics in the writings of artist and visual theorist Gyorgy Kepes as art merges with techno science in the service of a dynamic new pattern seeing Image and system thus converge in the organizational complex while top down power dissolves into networked pattern based control Architecture as one among many media technologies supplies the patterns images of organic integration designed to regulate new and unstable human machine assemblages

A Machine to Move Ocean and Earth James Tejani, 2024-07-23 Winner of the 2025 Bancroft Prize An enthralling debut a beguiling history of Southern California early industrial development and U S empire Publishers Weekly starred review A deeply researched narrative of the creation of the Port of Los Angeles a central event in America's territorial expansion and rise as a global economic power The Port of Los Angeles is all around us Objects we use on a daily basis pass through it furniture apparel electronics automobiles and much more The busiest container port in the Western hemisphere it claims one sixth of all US ocean shipping Yet despite its centrality to our world the port and the story of its making have been neglected in histories of

the United States In *A Machine to Move Ocean and Earth* historian James Tejani corrects that significant omission charting the port's rise out of the mud and salt marsh of San Pedro estuary and showing how the story of the port is the story of modern globalized America itself By the mid nineteenth century Americans had identified the West Coast as the republic's destiny a gateway to the riches of the Pacific In a narrative spanning decades and stretching to Washington DC the Pacific Northwest Civil War Richmond Southwest deserts and even overseas to Europe Hawaii and Asia Tejani demonstrates how San Pedro came to be seen as all important to the nation's future It was not virgin land but dominated by powerful Mexican estates that would not be dislodged easily Yet American scientists including the great surveyor George Davidson imperialist politicians such as Jefferson Davis and William Gwin and hopeful land speculators among them the future Union Army general Edward Ord would wrest control of the estuary and set the scene for the violence inequality and engineering marvels to come San Pedro was no place for a harbor Tejani reveals The port was carved in defiance of nature using new engineering techniques and massive mechanical dredgers Business titans such as Collis Huntington and Edward H Harriman brought their money and corporate influence to the task But they were outmatched by government reformers laying the foundations for the port for the modern city of Los Angeles and for our globalized world Interweaving the natural history of San Pedro into this all too human history Tejani vividly describes how a wild coast was made into the engine of American power A story of imperial dreams and personal ambition *A Machine to Move Ocean and Earth* is necessary reading for anyone who seeks to understand what the United States was what it is now and what it will be
