2017 NASA publicly conceded that in all likelihood the Solar System has a ninth planet Sitchin s scenario of a planet Nibiru
making periodic returns to Earth s neighborhood to tinker with human history may not quite fit with NASA s view of a

AMERICANS WERE HERE OVER 130 THOUSAND YEARS AGO The idea that modern humans or even Neanderthals could
have been present in America over twelve thousand years ago has long been controversial and discoveries which support that
argument have been denied discredited or disregarded by conventional science Extraordinary new findings in California
however are making the case that more than 130 thousand years ago someone used stone tools to break the bones of
mastodons The intent it is speculated would have been to extract the nutritious bone marrow According to archaeologist
Steven Holen as reported by the prestigious science website NewScientist com the evidence is fairly conclusive CANADIANS
OVER 13 THOUSAND Score another point for mythology over science For thousands of years the indigenous Heiltsuk Nation
of British Columbia has relayed an oral tradition from generation to generation that its ancestors escaped the harsh
conditions of the Ice Age on a temperate island off the coast of Canada Now archaeologists once convinced that no humans
were in North America before 12 000 years ago are facing powerful new evidence that the Heiltsuk may have been right all
