Humanity The Alien Project An Ancient Astronaut Theory:

Humanity: The Alien Project an Ancient Astronaut Theory Vincenzo J. Macrino, 2013-02-01 Since the advent of flight and the infancy of the space program there have been numerous accounts of UFOs and alien beings But what about ancient times Did people observe mysterious objects in the skies prior to the invention of the airplane Did they speak of mysterious intelligent creatures from the stars The answer is Yes Since the earliest days of human history UFOs and their occupants have been witnessed and recorded in detail These accounts can be found in the writings of Assyria Babylon and ancient Egypt in the Old Testament and apocryphal texts in the ancient Sanskrit texts of India in the literature and legends of Rome Norway Ireland and in the oral traditions of many tribal cultures around the world including those of Africa the Hawaiian Islands the Easter Islands and the Americas Humanity The Alien Project examines ancient tablets codices hieroglyphs manuscripts scrolls and oral traditions that describe alien encounters throughout history These accounts span centuries cultures and continents but they all share the same central theme the origins of man as it relates to the history of the gods and ancient UFO sightings Author Vincenzo Macrino presents astonishing evidence that our ancestors not only observed strange objects in the skies but at one time had a close personal face to face relationship with their occupants and that in truth we owe our very existence to the gods of the ancient world In modern times alien encounters have largely been covered up by media and the military or debunked as conspiracy theories or fiction However this fascinating investigation of thousands of years worth of literature and artwork shows that such encounters occurred long before anyone had a desire to cover them up instead they recorded these encounters so that mankind would remember them Are our ancestors really extraterrestrials The wealth of evidence presented in this work invites you to investigate this theory **Ancient Aliens**

Ancient Aliens Philip Coppens, 2014-12-15 Ancient civilizations generated many innovations that are difficult to explain, such as the remarkable mathematical accuracy of the pyramids of Giza, the man-made fertile soil of the Amazon known as terra preta, and massive stone monuments too heavy to move in Peru and Lebanon among other places. Given that modern science cannot explain these mysterious phenomena, one theory holds that ancient aliens were responsible for them. This volume examines the credibility of various paranormal hypotheses, giving readers the opportunity to explore the greatest puzzles of antiquity.
