

# House-Tree-Person Test

- Purported advantages over the DAP:
  - Patient's feelings about home in house
  - Less obvious
  - Tree reflects emotional history, self. Deeper unconscious
- Instructions:
  - Draw each picture, then follow-up questions
- Evaluation
  - Usually holistic interpretation
  - Interpreted much like DAP

*Interpreting Children's Drawings* Joseph H. Di Leo, 2013-04-15 First published in

1983 In this comprehensive volume Dr Di Leo once again brings to the reader the fruitful combination of extensive knowledge of children's drawings and an approach to the subject that is intimate and humane but highly sophisticated Those familiar with his books have come to expect the lucid style with which Dr Di Leo leads the clinician toward incisive interpretations of children's drawings pointing out key features and using where appropriate parallels from the world of art and literature His discussions of over 120 drawings reproduced in this volume cover an astonishing range of topics including Interpretation Formal and Stylistic Features Mostly Cognition drawing a man in a boat Mostly Affect drawing a house Projective Significance of Child Art The Whole and Its Parts Global Features Body Parts Sex Differences and Sex Roles in Western Society as Perceived by Children Laterality and Its Effects on Drawing Tree Drawings and Personality Traits Emotional Disorder Reflected in Drawings Pitfalls Role of the Arts in Education for Peace and Reflections In his analyses Dr Di Leo skillfully singles out examples of overinterpretation and other pitfalls and answers questions such as What does the therapist do when the child refuses to draw the family Is the drawing a self image What are the differences between regressive drawings compared with the immature drawings of normal children Even such fascinating topics as art brut creativity madness and child art are discussed The reader will find thought provoking both the author's astute analyses and his keen awareness of the influence of society on children and the pictures they draw Therapists in the field will find the book remarkably penetrating while students in the field will delight in its clarity and thoroughness Every one who works with the drawings of children will find it absorbing Children's Drawings Martin Krampen, 2013-06-29 This book is dedicated to all those who love children and their wonderful often surprising drawings This means it addresses all those interested in their developing capacity to produce iconic signs parents teachers child psychologists artists architects since building drawings

are treated here and semioticians at large to name but a few potential readers Because of the broad audience I tried to keep scientific jargon to a minimum Whenever this was unavoidable I tried to explain the terms in such a way that even beginners in psychology could understand my arguments I received the first impulse to think about a book like this from the International Year of the Child declared by the UN in 1979 In a first phase of the project I obtained drawings of the six different building types treated in this book from more than 100 children aged 3-12 years in Turkey during a stay there as part of the faculty of Architecture of the Karadeniz Technical University in Trabzon under the auspices of the UN ESCO UNDP program TUR 75 012 My special thanks go to Dr Erdem Aksoy then president of the university and Dr Ozgontil Aksoy then dean of the faculty of Architecture and Civil Engineering for their encouragement to carry out the project I would also like to thank Dr Kutzal Oztirk Sevinc Ertirk Ali Ozbilen Hasan Saltik together with all the teachers in nursery and elementary schools in and around Trabzon who helped to collect the drawings

**Drawings in Assessment and Psychotherapy** Leonard Handler, Antoinette D. Thomas, 2013-11-20 Drawing is a language projected by children and adults reflecting their joy and pain It is used extensively by clinical psychologists art therapists social workers and other mental health professionals in the assessment and treatment of children adolescents adults and couples This book brings together a renowned group of professionals to analyze the research and application of the most popular assessment and treatment tools Tests discussed include the Draw a Person Test the House Tree Person Test the Kinetic Family Drawing Test the Art Therapy Projective Imagery Assessment and the Wartegg Drawing Completion Test Working with sexually and physically abused children assessing clients with anorexia nervosa and the influence of osteopathic treatment on drawings are some of the special topics considered Numerous case studies are also included

*The New Psychometrics* Paul Kline, 2014-01-14 Many psychological factors are little more than statistical descriptions of particular sets of data and have no real significance Paul Kline uses his long and extensive knowledge of psychological measurement to argue that truly scientific forms of measurement could be developed to create a new psychometrics This would transform the basis of psychology and change it from a social science to a pure science

**A Cross-Cultural Psychological Assessment Manual** Alan Raphael, R. Lauren Miller, Theresa Jones, Charles Golden, 2023-07-11 This user friendly manual provides a cross cultural psychological assessment battery including projective methods Authors outline a new empirically validated reliable system which seeks to update the scoreable and interpretable factors and entwine commonly respected tried and true graphomotor tests thereby maximizing their efficacy in the assessment of significant psychological traits in children and adults Because of its use as a gender fair culture free language free testing method it will be a valuable asset in all areas of current psychological assessment The CCPAB test takes approximately 20 to 40 minutes to administer and does not require any administration materials that most practitioners would not have readily available The CCPAB can be used by evaluators on its own or in conjunction with other psychological and neuropsychological test data as well as by mental health treatment providers seeking a quick and accurate way to assess

the psychological functioning of individuals aged six years and older Multiple appendices contain information on scoring criteria scoring keys and a wealth of sample questions which will also be a useful resource for evaluators This manual is appropriate for users ranging from graduate level students in training and supervision to even the most skilled assessment psychologists for quick and valid assessment of a wide range of clients      What Do You See? Mala Gitlin Betensky, 1995 The author presents a varied menu of ideas and experiences in many areas in research in diagnosis and in psychotherapy each using art media with patients of all ages She integrates art phenomenology and gestalt psychology describing specific techniques and findings Part I of the book lays out the theoretical foundations and the techniques Part II addresses the formal components used in art therapy line shape and colour in their interrelated dynamics and discusses other aspects and modes of symbolic expression found in clients work Part III looks at symbolic expression through the scribble offering a system of classification diagnostic possibilities and case studies of work with eating disorders Part IV focuses on art expression for art therapy diagnostics including a method for qualitative diagnostics and a first full diagnostic battery for adolescents Part V is devoted to Holocaust children s art expressions highlighting the power of art expression in children under ultimate stress the intensity of their inner experience and its visualization in the structure of the pictures The book is for art therapists and advanced students It can be used as a textbook on phenomenological art therapy for therapeutically oriented art teachers educators and social workers and for practicing psychotherapists to see that art is a source of expression demonstrating how a person is      *Books in Print Supplement* ,1984
