Library Career Management in the Digital Age Katarina Michnik, 2024-06-18 There is currently an absence of an organization model which can be used as an aid to describing and discussing career development This book will fill this gap by presenting a new model the Librarian Career Management Tool that can be used to identify and structure possible opportunities and challenges to the career development of academic librarians in the digital age The career development of academic librarians follows different paths There are different kinds of career guidance resources targeting librarians and students in Library and Information Science and the prerequisites for career development may differ between academic libraries Because of this heterogeneity in the field there is a need for a theoretical and practical tool the Librarian Career Management Tool which distils variation down to fundamental principles which people can then work with The tool collates all possible career paths into a taxonomy of influencing factors and natural relationships between these factors for the digital librarian context The advantage of modelling these distinct patterns is to enable informed and far sighted decisions on the motivations for the next steps in an individual s career It also enables key trends in digital information management to be better understood Helps academic library managers to identify and structure the opportunities and challenges that their employees face in the digital age Helpful for early career academic librarians to identify and structure their motivations and what they want to achieve as librarians Ideal for educators in higher education within LIS as a resource for use in teaching about the prerequisites for and characteristics of career development of academic librarians

Library Project Funding Julie Carpenter, 2014-01-23 Managers and staff in libraries and information services in all sectors are increasingly required to prepare project proposals and bid for funding usually for external funding but also as part of internal strategic planning and management processes The projects proposed must be realistic and feasible because library managers and staff will be required to deliver their project on time and in budget If managers get the planning wrong at project proposal stage the consequences for implementation can be difficult to overcome This book provides guidance on the various steps involved in project development planning and the preparation of bids for funding based on the author s own experience and that of many organisations in the cultural heritage and education sectors It guides service managers and staff through the task of scoping developing and writing viable realistic and winning proposals drawing on a range of techniques from strategic planning financial management project management and business Uses practical up to date examples relevant to the cultural heritage

sector Different methodologies for example preparing business plans evaluation planning cost and time effort inputs

hundred years scholarly journals have been the prime mode of transport in communicating the scholarly research process. However, in the last few decades, a changing scenario has been witnessed in their form and format. OA is an innovative idea that attracts a fair amount of support and opposition around the world because it bridges the gap between digitally divided scholars by solving the pricing and permission crises that have imbalanced the scholarly communication process. Some scholars are of the opinion that OA has led to a chaotic environment where anyone can publish anything. Scholarly Communication in Library and Information Services records in detail the impact by accessing the journals web site qualitatively and quantitatively in measuring the important elements such as articles, authors, countries, subjects, and cited references. Finally, the book calculates the impact factor using synchronous and asynchronous approaches. First ever study to extensively evaluate LIS Journals Web site qualitatively by using a newly developed set of criteria. LIS OA journals are also evaluated quantitatively. Counts citations of LIS OA articles in terms of formal citations by using Google Scholar. **BoldAds**
