How Second Graders Can Develop Listening Skills:

Mindful Listening Instruction in the Elementary Classroom: Authentic Strategies Using Picturebooks Fortune, Donna Jessie, Barksdale, Mary Alice, 2023-09-18 In today's academic environment one essential skill that is often overlooked is active listening. While educators dedicate substantial time to teaching reading, writing, and speaking, listening skills remain a marginalized aspect of education. This negligence leaves students ill-prepared for the demands of the modern world and results in billions of dollars being spent by companies to train their employees in effective listening. The gap between the need for proficient listeners and the scarcity of resources to nurture this skill is harming or at least significantly delaying the potential of these students. *Mindful Listening Instruction in the Elementary Classroom: Authentic Strategies Using Picturebooks* is the solution we've all been waiting for. Academic scholars are deeply committed to improving education and they have recognized the urgency of addressing this pervasive issue. This book offers a transformative solution by advocating for the integration of listening skill instruction into elementary classrooms using the engaging medium of picture books. This book is a roadmap to a brighter future for our students and society. By addressing the problem of neglected listening skills and offering a compelling solution, this book equips educators, academics, and anyone invested in education with the tools to bridge the gap between the demand for proficient listeners and the current educational landscape's shortcomings.

has been a virtual revolution in early childhood studies with a mass of books and papers seeking to re-examine and reposition childhood. At the same time, an equally significant area has developed within literacy studies reflecting a growing interest in the nature of literacy as a socially situated phenomenon. There is increased interest in literacy as a multimodal concept in which symbolic meaning is a central concept rather than more conventional and narrower notions of literacy. The Handbook of Early Childhood Literacy is central in providing access to all these different perspectives. The Handbook offers a way through the vast diversity of publications on early childhood literacy by providing comprehensive and up-to-date reviews of research and thinking in early childhood literacy. The arrangement of chapters reflects a contemporary perspective on research into early childhood literacy. Major sections include the global world of early childhood literacy, childhood literacy and family, community and culture, the development of literacy in early childhood, pedagogy and early childhood literacy, and researching early childhood literacy. Contributions by leading authorities focus on literacy as a socially situated and global experience, one that is evolving in relation to changes in contemporary culture and technological innovation.

Foundations of School Counseling Cher N. Edwards, Mary Amanda Graham, 2022-10-31. Interweaves the perspectives of school counseling educators with those of practitioners in the trenches. This foundational text for school counselors in training is the only book to have chapters coauthored by counselor educators and practicing school counselors. It delivers easily accessible information based on a scholarly foundation of best practice recommendations from the field and research-based data-driven content including school counseling interventions, issues for professional practice, and a toolkit of helpful resources. The book is distinguished by its in-depth examination of the day-to-day role of the school counselor in elementary, middle, and high school settings, often a different reality than the recommended practice by the ASCA National Model, along with a commitment to cultural competency and social justice throughout. It covers the nuts and bolts of school counseling interventions, including individual, group, classroom guidance, and crisis intervention. Each chapter begins with a K-12 student testimony to highlight the impact of school counseling interventions and to promote a better understanding of student needs. This strengths-based text also examines a variety of contemporary topics that strongly affect students, including an entire chapter on LGBTQIA issues and coverage of Anti-Racism policies and Virtual Counseling. Additional features include Voices from the Field and Practical Applications that demonstrate real scenarios in practice. Instructor's will also have access to the Instructor's Manual, Test Bank, and chapter-based PowerPoint presentations.
