Gold,2019-07-19 This book develops an analytical framework for understanding United States foreign agricultural policy through a state interest approach and describes and analyses seven cases of food policy decisions through this perspective which shows that decision makers sought on most occasions to utilise US food resources to accomplish foreign policy objectives A fundamental aspect of the statist approach is the recognition that those sectors representing the interest of the state will inevitably confront other actors in the policy process who are likely pursuing conflicting objectives This book looks at contemporary circumstances in the formulation of US agricultural policy in particular those alterations that occurred beginning in 1972 It offers an analysis of the nature of foreign economic policy and outlines the re emergence of economics as an important component of US foreign policy and an analysis of the concept of food power The Eucharist and World Hunger Izunna Okonkwo,2011-12-21 Hunger is a menace in different parts of the globe It has more unnatural than natural causes Though efforts have been made towards alleviating its causes and consequences more actions still need to be taken for its genuine alleviation and eventual eradication in the world For Joseph Grassi painful hunger is a daily occurrence that must be countered by ongoing effective programs that enter into the lives of every Christian Such position not only recognises the frequency and excruciating nature of hunger but also suggests that Christians and other religious groups have a very important role to play in order to eradicate hunger and its devastating effects This book explores the nuances of hunger its causes dimensions and approaches as well as its connection to the Eucharist It argues that hunger can be eradicated and that the Eucharist stands out as a veritable model **Classic and Contemporary Readings in Sociology** Ian Marsh,Rosie Campbell,Mike Keating,2014-05-12 Classic and Contemporary Readings in Sociology introduces the reader to sociological issues theories and debates providing extracts of primary source material from both classical and contemporary theorists Theorists are examined within their historical and sociological framework and the text provides an analysis of developments in sociological thought and research The text is divided into four main sections Part One Origins and Concepts surveys the history of the discipline of sociology and examines key themes which have influenced sociological theorising and investigation in particular social control culture and socialisation Parts Two and Four Sociological Theories and Sociological Research include a number of readings from the founding theorists and investigators including Auguste Comte Emile Durkheim Karl Marx Max Weber and Charles Booth and also include more recent theoretical writing and research approaches The focus on theory and research is extended by a selection of readings centred around the theme of Differences and Inequalities Part Three these readings provide students with examples of work from an area where sociological theorising and research has been widely applied **The Malthusian Moment** Thomas Robertson,2012-05-07

On an Empty Stomach examines the practical techniques humanitarians have used to manage and measure starvation from Victorian scientific soup kitchens to space age high protein foods Tracing the evolution of these techniques since the start of the nineteenth century Tom Scott Smith argues that humanitarianism is not a simple story of progress and improvement but rather is profoundly shaped by sociopolitical conditions Aid is often presented as an apolitical and technical project but the way humanitarians conceive and tackle human needs has always been deeply influenced by culture politics and society These influences extend down to the most detailed mechanisms for measuring malnutrition and providing sustenance As Scott Smith shows over the past century the humanitarian approach to hunger has redefined food as nutrients and hunger as a medical condition Aid has become more individualized medicalized and rationalized shaped by modernism in bureaucracy commerce and food technology *On an Empty Stomach* focuses on the gains and losses that result examining the complex compromises that arise between efficiency of distribution and quality of care Scott Smith concludes that humanitarian groups have developed an approach to the empty stomach that is dependent on compact commercially produced devices and is often paternalistic and culturally insensitive Everyman's Child Sophie Irene Loeb, 1920 **US Capitalist Development Since 1776** Douglas Dowd, 2016-09-16

Democracy's Think Tank Brian S. Mueller, 2021-07-02 In *Democracy's Think Tank* Brian S Mueller places the Institute for Policy Studies IPS at the center of a network of activists involved in making the world safe for diversity Unlike defense intellectuals at the RAND Corporation and other think tanks responsible for formulating military strategy the peace intellectuals at IPS developed blueprints for an alternative to the U S led world order As the Iron Curtain fell across Eastern Europe a triumphalist Cold War narrative emerged proclaiming victory for freedom democracy and free enterprise over totalitarianism Yet for the peace intellectuals at IPS the occasion did not merit celebration Since its doors opened in 1963 IPS refused to embrace American exceptionalism and waged a battle against the Cold War and its liberal anti communist supporters As IPS founders Marcus Raskin and Richard Barnet saw it in the process of fighting communism and preserving the liberal capitalist order Cold War liberals had forsaken democracy *Democracy's Think Tank* tells the story of IPS's crusade to resurrect democracy at home and abroad Borrowing from populist progressive and New Left traditions IPS challenged elite expertise and sought to restore power to the people To this end IPS in the words of journalist I F Stone served as the institute for the rest of us Mueller tells the story of IPS's involvement in a broad range of grassroots campaigns aimed at ending the Cold War and increasing participatory democracy in the United States and across the globe Contemporary observers seeking an alternative to American empire in the twenty first century will find *Democracy's Think Tank* offers several possible paths toward a more democratic order

The Spirit of the Soil Paul B. Thompson, 2017-05-25 In this second edition of *The Spirit of the Soil Agriculture and Environmental Ethics* Paul B Thompson reviews four worldviews that shape competing visions for agriculture Productionists have sought increasing yields to make two seeds grow where only one grew before while traditional visions of good farming have stressed stewardship These traditional visions have been challenged by two more worldviews a call for a total cost accounting for farming and an advocacy for a holistic perspective Thompson argues that an environmentally defensible systems approach must draw upon all four worldviews recognizing their flaws and synthesizing their strengths in a new vision of sustainable agriculture This classic 1995 study has been thoroughly revised and significantly expanded in its second edition with up to date examples of agriculture's impact on the environment These include extensive discussions of new pesticides and the effects of animal agriculture on climate and other areas of the environment In addition a new final chapter discusses sustainability which has become a dominant idea within environmental studies and agrarian political philosophy
