How "Natives" Think Marshall Sahlins, 1995 On Captain Cook Captain Cook Glyndwr Williams, 2004 Essays reassess Cook's standing as a leading figure in eighteenth century history exploration and the advancement of science *When Greeks think about Turks* Dimitrios Theodossopoulos, 2013-09-13 Drawing upon anthropological studies that document culturally specific ways of perceiving ethnic Others in Greece and Cyprus this book explores the cultural boundaries of the categories Greek and Turk and compares views on what it means to be one of these ethnic groups or both The contributors examine the opinions of diverse social groups such as ordinary middle class citizens intellectuals army officers children villagers refugees from Asia Minor and Greek and Turkish Cypriots They also investigate the local attitudes to international politics and highlight the contextual as opposed to immutable and essentialist meaning of evaluations about nations such as Greece Turkey and Cyprus and their citizens When Greeks think about Turks carefully unpacks the cultural meaning of popular metaphors stereotypes and versions of history as these are articulated in the context of discussions about the Turks in Greece It sets the template for understanding how local perceptions of resemblance and difference provide a conceptual framework for defining and negotiating ethnic identity at the local national and international level It sheds valuable light on the politics of identity making and the constitution of nationalism in Greece and Cyprus This book was previously published as a special issue of South European Society and Politics **The Apotheosis of Captain Cook** Gananath Obeyesekere, 2021-07-13 Here Gananath Obeyesekere debunks one of the most enduring myths of imperialism civilization and conquest the notion that the Western civilizer is a god to savages Using shipboard journals and logs kept by Captain James Cook and his officers Obeyesekere reveals the captain as both the self conscious civilizer and as the person whose mission gone awry becomes a savage himself In this new edition of *The Apotheosis of Captain Cook* the author addresses in a lengthy afterword Marshall Sahlins's 1994 book *How Natives Think* which was a direct response to this work *Composing Useful Pasts* Edmund E. Jacobitti, 2000-08-31 *Composing Useful Pasts* discusses how history is not a settled record of the dead past but a poetic or imaginative creation stimulated by and focused on contemporary interests Historical investigation is always and necessarily a selective reading of events It is an interpretation that arises only because of some pressing question in the present a question that can only be answered in terms that address the interests concerns and problems of contemporary readers This book employs a postmodern philosophy of the human sciences to show the power of historical explanation in contemporary political life It explores issues as diverse as the interpretation of the French Revolution the influence of Greek heritage on Western culture and the ongoing debate about America's founding principles **A Practice of Anthropology** Alex Golub, Daniel Rosenblatt, John D. Kelly, 2016-05-01 Marshall Sahlins b 1930 is an American anthropologist who played a major role in the development of anthropological theory in the second half of the twentieth century Over a sixty year career he and his colleagues synthesized trends in evolutionary Marxist and ecological

Beyond Ethnicity Camilla Fojas, Rudy P. Guevarra, Nitasha Tamar Sharma, 2018-03-31 Written by scholars of various disciplines the essays in this volume dig beneath the veneer of Hawai'i's myth as a melting pot paradise to uncover historical and complicated cross-racial dynamics Race is not the primary paradigm through which Hawai'i is understood Instead ethnic difference is celebrated as a sign of multicultural globalism that designates Hawai'i as the crossroads of the Pacific Racial inequality is disruptive to the tourist image of the islands It ruptures the image of tolerance diversity and happiness upon which tourism business and so many other vested transnational interests in the islands are based The contributors of this interdisciplinary volume reconsider Hawai'i as a model of ethnic and multiracial harmony through the lens of race in their analysis of historical events group relations and individual experiences and humor among other focal points **Beyond Ethnicity** examines the dynamics between race ethnicity and indigeneity to challenge the primacy of ethnicity and cultural practices for examining difference in Hawai'i while recognizing the significant role of settler colonialism This original and thought-provoking volume reveals what a racial analysis illuminates about the current political configuration of the islands and in doing so challenges how we conceptualize race on the continent Recognizing the ways that Native Hawaiians or Kānaka Maoli are impacted by shifting violent and hierarchical colonial structures that include racial inequalities the editors and contributors explore questions of personhood and citizenship through language land labor and embodiment By admitting to these tensions and ambivalences the editors set the pace and tempo of powerfully argued essays that engage with the various ways that Kānaka Maoli and the influx of differentially racialized settlers continue to shift the social political and cultural terrains of the Hawaiian Islands over time

A Shark Going Inland Is My Chief Patrick Vinton Kirch, 2012-08-06 Tracing the origins of the Hawaiians and other Polynesians back to the shores of the South China Sea archaeologist Patrick Vinton Kirch follows their voyages of discovery across the Pacific in this fascinating history of Hawaiian culture from about one thousand years ago Combining more than four decades of his own research with Native Hawaiian oral traditions and the evidence of archaeology Kirch puts a human

face on the gradual rise to power of the Hawaiian god kings who by the late eighteenth century were locked in a series of wars for ultimate control of the entire archipelago This lively accessible chronicle works back from Captain James Cook's encounter with the pristine kingdom in 1778 when the British explorers encountered an island civilization governed by rulers who could not be gazed upon by common people Interweaving anecdotes from his own widespread travel and extensive archaeological investigations into the broader historical narrative Kirch shows how the early Polynesian settlers of Hawai'i adapted to this new island landscape and created highly productive agricultural systems

Liberals and Cannibals Steven Lukes, 2017-01-31 With debates on the meaning of liberal society more heated than ever this is a timely re issue of a classic text Can the tension between relativism and the moral universalism current in contemporary politics be resolved within the framework of liberalism How is liberal society to interpret the diversity of morals Is pluralism the appropriate response How does pluralism differ from the widely condemned ethnocentric relativism liberalism for the Liberals cannibalism for the cannibals Confronting liberal thought with its own limitations Steven Lukes work is more relevant than ever While recognizing the dangers of moral imperialism Lukes argues that a relativist position based on identifying clearly distinct cultural and moral communities is incoherent Drawing on work in anthropology and philosophy he examines the nature of social justice the politics of identity and human rights theory

Towards a Philosophical Anthropology of Culture Kevin M. Cahill, 2021-01-24 This book explores the question of what it means to be a human being through sustained and original analyses of three important philosophical topics relativism skepticism and naturalism in the social sciences Kevin M Cahill's approach involves an original employment of historical and ethnographic material that is both conceptual and empirical in order to address relevant philosophical issues Specifically while Cahill avoids interpretative debates he develops an approach to philosophical critique based on Cora Diamond's and James Conant's work on the early Wittgenstein This makes possible the use of a concept of culture that avoids the dogmatism that not only typifies traditional metaphysics but also frequently mars arguments from ordinary language or phenomenology This is especially crucial for the third part of the book which involves a cultural historical critique of the ontology of the self in Stanley Cavell's work on skepticism In pursuing this strategy the book also mounts a novel and timely defense of the

interpretivist tradition in the philosophy of the social sciences Towards a Philosophical Anthropology of Culture will be of interest to researchers working on the philosophy of the social sciences Wittgenstein and philosophical anthropology The Open Access version of this book available at <http://www.taylorfrancis.com/books/9780367638238> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *Intimate Strangers* Vanessa Smith, 2010-10-28 A fascinating study of the importance of ideas of friendship in late eighteenth century explorations of the Pacific

the light of ongoing struggles between Natives and non Natives over land and cultural status Between the 1770s and 1850s the Native people of Vancouver Island were engaged by three sets of forces that were of general importance in the history of Western overseas expansion the West's scientific exploration of the world in the Age of Enlightenment capitalist practices of exchange and the geopolitics of nation state rivalry Islands of Truth discusses these developments the geographies they worked through and the stories about land identity and empire stemming from this period that have shaped understanding of British Columbia's past and present Clayton questions premises underlying much of present B C historical writing arguing that international literature offers more fruitful ways of framing local historical experiences Islands of Truth is a timely provocative and vital contribution to post colonial studies **Cultures of Eschatology** Veronika Wieser, Vincent

Richardson, 2010-10-01 Before Captain Cook's three voyages to

Europeans the globe was uncertain and dangerous after it was comprehensible and ordered Written as a conceptual field guide to the voyages Longitude and Empire offers a significant rereading of both the expeditions and modern political philosophy More than any other work printed accounts of the voyages marked the shift from early modern to modern ways of looking at the world The globe was no longer divided between Europeans and savages but populated instead by an almost overwhelming variety of national identities Cook's voyages took the fragmented and obscure global descriptions available at the time and consolidated them into a single comprehensive textual vision Locations became fixed on the map and the people animals plants and artifacts associated with them were identified collected understood and assimilated into a world order This fascinating account offers a new understanding of Captain Cook's voyages and how they affected the European world view *Imagined Australia* Renata Summo-O'Connell, 2009 From Terra Nullius to Land of Opportunities and Last Frontier

the European dream has constructed and deconstructed Australia to feed its imagination of new societies At the same time Australia has over the last two centuries forged and re invented its own liaisons with Europe arguably to carve out its identity From the arts to social sciences to society itself a complex dynamic has grown between the two continents in ways that invite study and discussion A transnational research group has begun its collective investigation project of which this first volume is the outcome The book is a substantial multidisciplinary collection of current research and offers critical perspectives on culture literature and history around themes at the heart of the Imagined Australia project The essays instigate reflection discovery and discussion of how reciprocal imagining between Australia and Europe has articulated itself and ways and dimensions in which a relationship between communities imagined and not has unfolded

Contested Masculinities Nalin Jayasena, 2013-10-18 Exploring how English masculinity that was so contingent on the relative health of the British imperial project negotiated the decline and ultimate dissolution of the empire by the middle of the twentieth century this book argues that by defining itself in relation to indigenous masculinity English masculinity began to share a common idiom with its colonial other The rhetoric of indigenous masculinity therefore both mimicked and departed from its metropolitan counterpart The study combines an interdisciplinary approach with a focus that is not limited to a single colonial society but ranges from colonial Bengal Burma Borneo and finally to colonial Australia
