How Outer Space Made America Geography Organization And The Cosmic Sublime:

How Outer Space Made America Daniel Sage, 2016-04-29 In this innovatory book Daniel Sage analyses how and why American space exploration reproduced and transformed American cultural and political imaginations by appealing to and to an extent organizing the transcendence of spatial and temporal frontiers In so doing he traces the development of a seductive and powerful yet complex and unstable American geographical imagination the transcendental state Historical and indeed contemporary space exploration is despite some recent notable exceptions worthy of more attention across the social sciences and humanities While largely engaging with the historical development of space exploration it shows how contemporary cultural and social and indeed geographical research themes including national identity critical geopolitics gender technocracy trauma and memory can be informed by the study of space exploration Multiculturalism,

Multilingualism and the Self: Literature and Culture Studies Jacek Mydla, Małgorzata Poks, Leszek Drong, 2017-07-31 This edited collection explores the conjunction of multiculturalism and the self in literature and culture studies and brings together essays by prominent researchers interested in literature and culture whose critical perspectives inform discussions of specific examples of multicultural contexts in which individuals and communities strive to maintain their identities The book is divided into two major parts the first of which comprises literary representations of multiculturalism and discussions of its impasses and impacts in fictional circumstances In turn the second part primarily focuses on culture at large and real life consequences Taken together the two complementary parts offer an illuminating and well rounded overview of representations of multiculturalism in literature and contemporary culture from a variety of critical perspectives **The**
