sense of purpose in life and love **Amazing Grace of Quantum Physics** Dillard W. Faries, 2017-11-07 Science and faith have had a long intertwined history The relationship has run the gamut from a total disconnect to an adversarial battleground where proponents of each claim total victory However if God created the physical world and remains active in the physical world we cannot ignore the interaction nor can we assume or expect a world of conflict While nineteenth century physics brought classical physics which quite reasonably divorced God and nature to a culmination twentieth century physics especially quantum physics has opened a new realm of possible interactions Even though one can reasonably say that no one understands quantum physics the fruits of the discipline overflow the cornucopia People of faith can share the feast and people of science are welcome at the table of faith **The DNA Field and the Law of Resonance** Pierre

Mardyks, Joerg Schmitz, 2017-11-20 Master the art of getting what you need with a more collaborative approach to negotiation Quantum Negotiation is a handbook for getting what you need using a mindset and behaviors based on a refreshingly expansive perspective on negotiation Rather than viewing every negotiation as an antagonistic and combative relationship this book shows you how to move beyond the traditional pseudo win win to construct a deal in which all parties get what they need By exploring who we are as negotiators in the context of social conditioning this model examines the cognitive psychological social physical and spiritual aspects of negotiation to help you produce more sustainable prosperous and satisfying agreements We often think of negotiation as taking place in a boardroom a car dealership or any other contract centered situation in reality we are negotiating every time we ask for something we need or want Building more robust negotiation behaviors that resonate beyond the boardroom requires a deep engagement with others and a clear mindset of interdependence This book helps you shift your perspective and build these important skills through a journey of discovery reflection and action Rethink your assumptions about negotiations your self perception your counterpart and the overall relationship Adopt new tools that clarify what you want why you need it and how your counterpart can also get what they want and need Challenge fundamental world views related to negotiation and shift from adversarial to engaging and satisfying Understand the unseen forces at work in any negotiation and prevent them from derailing your success In the interest of creating an environment that elevates everyone s
