Naar een school voor de gereformeerde gezindte Adriaan Cornelis Rosendaal, André C. Rosendaal, 2006 A Mature Faith D. J. Louw, 1999 A Mature Faith is an attempt to develop an anthropology for pastoral care and counseling which deals with both Christian perspective and important data from the human sciences such as psychology This book presents an integrative approach which views spirituality and our human quest for meaning as central to a psycho pastoral approach A doctrine of persons is designed which deals with both the dimension of creation image of God and of salvation the new being in Christ This book argues for an understanding of human beings in terms of their human identity before God Coram Deo as well as the empowerment of persons by the gift and fruit of the Spirit Hence the importance of a pneumatological perspective on maturity and adulthood The interplay between God images and our human selfunderstanding is discussed In this regard the question about diagnosis in pastoral counseling and the technique of storytelling receive attention A pastoral hermeneutics which tries to understand our human predicament in terms of both the social and cultural context as well as our relationship with God is fundamental to the models presented in this book In spiritual direction the basic assumption is that God images and the implication of different perceptions of God on life issues should play a decisive role In terms of our human quest for meaning within a secularized society the following metaphor for God is proposed God as our Soul Friend The book is written for priests ministers and pastoral caregivers involved in counseling and spiritual direction Its main focus is on professional training within an academic setting It will also be useful for the training of lay members within a congregational setting **Folia psychiatrica, neurologica et neurochirurgica Neerlandica**, 1951 **Phases** Bernard Lievegoed, 2013-05-01 The human biography is a symphony which each individual personally composes While each person's path in life is a unique and individual work of art the human being meets certain milestones from the period of adolescence to old age which are universal in nature Regardless of background critical outer and inner stages must be passed through A

bestseller since it was first published Phases describes each period of life adolescence the twenties thirties forties etc and looks at the inner qualities and challenges that arise at each stage The author argues that the various biological and psychological explanations of the human being are incomplete If the inner self the ego of each individual is recognized and acknowledged then the peculiarities of one s particular life path and its challenges take on new meaning BERNARD LIEVEGOED psychiatrist educator and anthroposophist brought half a century of clinical practice studious observation and personal insight into the writing of this book His overview of the course of human life and professional career of male female relationships and the sometimes misleading picture of the human being presented by the various psychological schools of thought has made this book essential reading for all those interested in attaining an insight into the mystery of life **The Columbus** M.
