Software Evangelism and the Rhetoric of Morality Jennifer Helene Maher,2015-08-27 Examining the layers of meaning encoded in software and the rhetoric surrounding it this book offers a much needed perspective on the intersections between software morality and politics In software development culture evangelism typically denotes a rhetorical practice that aims to convert software developers as well as non technical lay users from one platform to another e g from the operating system Microsoft Windows to Linux This book argues that software evangelism like its religious counterpart must also be understood as constructing moral and political values that extend well beyond the boundaries of the development culture Unlike previous studies that locate such values in the effects of code in use or in certain types of code like free and open source FOSS software Maher argues that all code is meaningful beyond its technical executable functions To facilitate this analysis this study builds a theory of evangelism and illustrates this theory at work in the proprietary software industry and FOSS communities As an example of political liberalism at work at the level of code these evangelical rhetorics of software construct competing conceptions of what is good that fall within a shared belief in what is just Maher illustrates how these beliefs in goodness and justice do not always execute in replicable ways as the different ways of decoding software evangelisms in the contexts of Brazil and China reveal Demonstrating how software evangelisms exert a transformative force on the world one comparable in significance to code itself this book highlights the importance of rhetoric in even the most seemingly a rhetorical of technical endeavors and foregrounds the crucial need for rhetorical literacy in the digital age

Being a Historian James M. Banner, Jr,2012-04-30 Based on the author s more than 50 years of experience as a professional historian in academic and other capacities *Being a Historian* is addressed to both aspiring and mature historians It offers an overview of the state of the discipline of history today and the problems that confront it and its practitioners in many professions James M Banner Jr argues that historians remain inadequately prepared for their rapidly changing professional world and that the discipline as a whole has yet to confront many of its deficiencies He also argues that no longer needing to conform automatically to the academic ideal historians can now more safely and productively than ever before adapt to their own visions temperaments and goals as they take up their responsibilities as scholars teachers and public practitioners Critical while also optimistic this work suggests many topics for further scholarly and professional exploration research and debate Shelter for the Spirit Victoria Moran,1997 Merging Eastern and Western spiritual

traditions with a sensitivity to the demands of modern life Shelter for the Spirit provides people with usable directions for bringing a sense of peace and renewal to their homes Whether addressing how to get rid of clutter or decorate in a way that respects your personality this book shows how the quality of attention we give to everyday acts can transform our lives
