"Patterns of Native American Life" ("The First Americans," pp. 3–11)

Question 3: What regional differences in native societies and economies existed on the North American continent before European arrival?

Although all North American natives lacked the livestock, literacy, wheeled vehicles, and other technologies that emerged in Europe on the eve of Columbus's travels, they developed regionally specific forms of social organization and economy. Tribes of the Ohio and Mississippi River valleys engaged in trade and formed large settlements. Hopi and Zuni Indians in the American Southwest built planned towns with multifamily dwellings, built water systems, and traded over long distances. Hunting and gathering and—in the Pacific Northwest—fishing sustained hundreds of distinct tribes in the Northwest and the Great Plains. Tribes in eastern North America inhabited small towns and villages and sustained their hunting and gathering practices by growing corn, squash, and beans. Across North America, Indians spoke hundreds of different languages, practiced different religions, and governed themselves in diverse political systems.

Question 4: How did Europeans make sense of native societies?

Early European reports described Native Americans flatteringly, but over time Europeans came to characterize natives as brutal savages, mostly because of their religion, their land use, and their gender relations. Europeans charged them with devil worship, did not understand native reservations against exploiting land commercially, claimed that natives were nomadic, and declared their lands "vacant" in order to claim it for themselves. And since Europeans considered hunting and fishing "leisure" activities, they considered native men lazy and their women oppressed for having to work in the fields and outside the home. The matrilineal family structures in America struck Europeans as the result of weak men. Only private property, Christianity, and a more patriarchal division of labor—so the Europeans thought—would free the Indians and bring them civilization.

"Indian and European Ideas of Freedom" ("Indian Freedom, European Freedom" pp. 11–13)

Question 1: Enter Bullet Point Notes

Indian Freedom:

- Many Europeans saw Indians as the embodiment of freedom, but most others saw freedom as absent in Indian societies.
